QUARTERLY REPORT

REPORTS, RESULTS AND OBSERVATIONS

PREPARED BY THE

LABORATORY OF THE DISTRICT

SCOTTLAND

QUARTER ENDING 31 MARCH 1900

Presented to the Society of the

COMMITTEE

LABORATORY

REPORT FOR THE YEAR 1900

BY THE DISTRICT

LABORATORY

OF THE DISTRICT

1900

REPORT.

During the quarter ending 31st March 1908 there were registered in Scotland the births of 32,503 living children, the deaths of 23,997 persons, and 7591 marriages. These births are 1160 more than those registered in the previous quarter, and 995 more than those registered in the first quarter of last year. These deaths are 5205 more than those registered in the previous quarter, and 1362 more than those registered in the first quarter of last year. These marriages are 543 fewer than those registered in the previous quarter, but 323 more than those registered in the first quarter of last year. Compared with the average number of births, deaths, and marriages registered in the first quarter of the last ten years, the averages being corrected for increase of population, the births for the quarter are 1498 below the average, the deaths 698 above the average, and the marriages 107 below the average.

TABLE I.—BIRTHS, DEATHS, and MARRIAGES in SCOTLAND, its Groups of Districts, and Divisions during the Quarter ending 31st March 1908, with their Proportion to the Population; also the Illegitimate Births, and their Proportion to the Total Births.

BIRTHS.

The total number of births registered in Scotland during the quarter, 32,503, is equivalent to an annual birth-rate of 27·0 per thousand of the estimated population, a rate which is 0·9 above that for the previous quarter, and 0·2 above that for the corresponding quarter of last year, but is 1·6 below the average of the birth-rates for the first quarter of the last ten years.

The birth-rate for the quarter ranged from 30·5 in the Large Town

Registration districts, to 19·7 in the Insular-Rural districts. In the Small Town districts it was 28·7, in the Principal Town districts 27·1, and in the Mainland-Rural districts 23·7. In each of these groups of registration districts the birth-rate was higher in this than in the previous quarter.

In the divisions of the counties the birth-rate for the quarter ranged from 30·0 in the South-Western, to 19·1 in the North-Western. In the West-Midland it was 26·9; in the North-Eastern, 26·3; in the East-Midland, 25·6; in the South-Eastern, 24·5; in the Southern, 21·8; and in the Northern, 19·3. In the Northern, North-Western and West-Midland divisions the birth-rate for the quarter was lower than that for the previous quarter, but in the other divisions of the counties the birth-rate was higher than in that quarter.

TABLE II.—Percentage of the Illegitimate Births to the Total Births in the Counties of Scotland during the Quarter ending 31st March 1908.

Counties.	Per Cent.	Counties.	Per Cent.	Counties.	Per Cent.
Shetland	2·7	Forfar	6·7	Lanark	5·5
Orkney	5·0	Perth	8·4	Linlithgow	5·2
Caithness	13·0	Fife	4·1	Edinburgh	7·6
Sutherland	2·7	Kinross	0·0	Haddington	7·8
Ross and Cromarty	5·1	Clackmannan	2·6	Berwick	7·6
Inverness	6·1	Stirling	4·2	Peebles	6·5
Nairn	15·6	Dumbarton	4·2	Selkirk	8·3
Elgin	14·2	Argyll	8·7	Roxburgh	13·5
Banff	15·0	Bute	7·6	Dumfries	10·4
Aberdeen	12·6	Renfrew	4·0	Kirkcudbright	8·3
Kincardine	8·1	Ayr	5·9	Wigtown	13·7

In the eight principal towns the birth-rate ranged from 30·3 in Greenock to 20·2 in Edinburgh. In Leith it was 29·4; in Paisley, 28·7; in Glasgow 28·1; in Dundee, 26·9; in Aberdeen, 26·0; and in Perth, 22·4.

Of the total births registered during the quarter, 2122, or 6·5 per cent., were illegitimate. These births are 167 more than in the previous quarter, but 46 fewer than in the corresponding quarter of last year. The illegitimate rate is 0·3 more than that for the previous quarter, but 0·4 less than that for the first quarter of last year. In the groups of registration districts the illegitimate rate ranged from 8·6 in the Mainland-Rural districts to 4·6 in the Large Town districts. In the Principal Town districts it was 6·5; in the Small Town districts, 6·3; and in the Insular-Rural districts, 5·5. In the divisions of the counties this rate ranged from 12·7 in the North-Eastern, to 4·9 in the West-Midland. In the Southern it was 11·3; in the South-Eastern, 7·3; in the Northern, 6·7; in the East-Midland, 5·7; in the North-Western, 5·6; and in the South-Western, 5·3. In the counties the illegitimate rate ranged from 15·6 in Nairn, 15·0 in Banff, 14·2 in Elgin, 13·7 in Wigtown, and 13·5 in Roxburgh, to 0 in Kinross, 2·6 in Clackmannan, 2·7 in

Shetland, 2·7 in Sutherland, and 4·0 in Renfrew. In eight counties this rate was more than 10 per cent.; in seventeen counties it was between 5 and 10 per cent.; in eight counties it was less than 5 per cent.

Of the 32,503 children born, 16,762 were male, and 15,741 female. The proportion of male to female children was thus 106·5 to 100.

The average number of births registered daily in January was 359, in February 351, and in March 361.

The birth-rate for the quarter in England and Wales was 27·3, which is 0·3 above the Scottish birth-rate.

DEATHS.

Deaths registered during the quarter numbered 23,997, for which the equivalent annual death-rate is 20·0 per thousand of the estimated population. This death-rate is 4·4 above that for the previous quarter; 0·8 above that for the first quarter of last year; and 0·4 above the mean of the death-rates for the first quarter of the last ten years. It is higher than all quarterly death-rates for Scotland since that for the first quarter of the year 1900.

In the groups of registration districts the death-rate for the quarter ranged from 20·6 in the Principal Town districts and in the Large Town districts, to 16·8 in the Insular-Rural districts. In the Mainland-Rural districts it was 19·4, and in the Small Town districts 19·0. In each of these groups of registration districts, the death-rate is higher than in the previous quarter.

In the divisions of the counties the death-rate ranged from 21·2 in the South-Western, to 17·7 in the Northern. In the East-Midland it was 20·1; in the North-Western, 19·7; in the Southern, 19·1; in the South-Eastern, 19·0; in the West-Midland, 18·3; and in the North-Eastern, 18·1. In all of these divisions the death-rates are higher than the death-rates for the previous quarter.

In the Eight Principal Towns the death-rate for the quarter ranged from 24·2 in Perth to 17·5 in Aberdeen. In Glasgow it was 23·0; in Dundee, 22·7; in Leith, 21·5; in Greenock, 21·1; in Paisley, 20·4; and in Edinburgh, 18·1. In each of these towns the death-rate was higher than in the previous quarter.

Of the total deaths for the month, 11,869 were of males, and 12,128 of females.

The average number of deaths registered daily in January was 272, in February 268, and in March 252.

The death-rate for the quarter in England and Wales was 17·8, which is 2·2 below the Scottish death-rate.

MARRIAGES.

Marriages registered during the quarter numbered 7591. The equivalent annual marriage-rate is 6·3, a rate which is 0·4 below that for the previous quarter, 0·1 above that for the first quarter of last year, and 0·2 below the mean of the marriage-rates for the first quarter of the last ten years.

In the groups of registration districts the marriage-rate for the quarter ranged from 7·1 in the Principal Town districts, to 4·0 in the Mainland-Rural districts.

In the Large Town districts it was 6·8; in the Small Town districts, 6·3; and in the Insular-Rural districts, 5·2. In the divisions of the counties the marriage-rate ranged from 7·2 in the South-Western, to 4·3 in the North-Eastern. In the East-Midland it was 6·7; in the South-Eastern, 6·1; in the West-Midland, 5·4; in the North-Western, 5·3; in the Southern, 5·0; and in the Northern, 4·8.

The average number of marriages registered daily in January was 124, in February 60, and in March 65.

CAUSES OF DEATH IN EIGHT OF THE PRINCIPAL TOWNS.

As 38 per cent. of the population of Scotland live in eight of the principal towns, namely, Glasgow, Edinburgh, Dundee, Aberdeen, Paisley, Leith, Greenock, and Perth, it may be assumed that the causes of death found to be prevalent in them in the quarter are a fairly good indication of the causes of death prevalent generally in Scotland during the period. Details of the causes of death in the remainder of Scotland during the quarter are not yet available.

The estimated population of these eight towns is 1,839,038. Deaths in them during the quarter numbered 9736, and the equivalent annual death-rate is 21·2 per thousand, a rate which is 4·0 higher than that for the previous quarter, and 0·8 higher than that for the first quarter of last year. The death-rate for these towns in January was 23·0, in February, 21·3, and in March, 19·4.

Deaths from the acutely infectious diseases numbered 1340, of them 565 being registered in January, 401 in February, and 374 in March. The death-rate for the quarter from these causes was 2·92; that of January was 3·62; of February, 2·75; and of March, 2·40. The death-rate from these causes is 0·85 higher than that for the previous quarter, and 0·75 higher than that for the first quarter of last year. These deaths include 6 from smallpox; 770 from measles, which is 283 more than in the previous quarter, and 694 more than in the first quarter of last year; 61 from scarlet fever; 308 from whooping-cough, being 88 more than in the previous quarter, but 22 less than in the corresponding quarter of last

year; 78 from diphtheria; 31 from enteric fever; and 86 from cerebro-spinal meningitis, being 16 more than in the previous quarter, but 307 fewer than in the first quarter of last year. The equivalent annual death-rate per 100,000 from measles was 168; from scarlet fever, 13; from whooping-cough, 67; from diphtheria, 17; from enteric fever, 7; and from cerebro-spinal meningitis, 19.

Deaths from diarrhoeas, including those certified as due to enteritis and gastro-enteritis, numbered 190. They are 98 fewer than in the previous quarter, and 6 fewer than in the corresponding quarter of last year. The equivalent annual death-rate from these causes was 41 per 100,000, a rate which is 22 less than that for the previous quarter, and 3 less than that for the first quarter of last year. This death-rate in January was 42; in February, 37; and in March, 45.

Deaths from tuberculous diseases numbered 1097; they are 151 more than in the previous quarter, but 69 fewer than in the corresponding quarter of last year. The death-rate from these diseases for the quarter was 239 per 100,000, a rate which is 32 more than that for the previous quarter, but 22 less than that for the first quarter of last year. These deaths include 716 from phthisis, 169 from tuberculous meningitis, 107 from tuberculous peritonitis and tabes mesenterica, and 105 from other forms of tuberculous disease. The death-rate for the quarter from phthisis was 156 per 100,000, a rate which is 27 more than that for the previous quarter, but 10 less than the rate for the first quarter of last year.

Deaths from malignant disease numbered 472; they are 19 more than in the previous quarter, and 28 more than in the first quarter of last year. The death-rate from this cause was 103 per 100,000, a rate which is 4 higher than that for the previous quarter, and 4 higher than that for the corresponding quarter of last year. Of these deaths, 264 were ascribed to carcinoma, 31 to sarcoma, and 177 to other or not specified forms of cancer.

Pneumonia was the ascribed cause of 1177 deaths, of which 413 were registered in January, 411 in February, and 353 in March. The death-rate for the quarter from pneumonia was 257 per 100,000; that for January was 265; for February, 281; and for March, 226. The quarter's deaths from pneumonia are 317 more than those for the previous quarter, and 171 more than those for the first quarter of last year; the quarter's death-rate from pneumonia is 69 more than that for the previous quarter, and 32 more than that for the corresponding quarter of last year.

Deaths from bronchitis numbered 952; they are 325 more than in the previous quarter, and 65 more than in the corresponding quarter of last year. The death-rate from bronchitis was 208 per 100,000, a rate which is 71 higher than that for the previous quarter, and 9 higher than that for the first quarter of last year. This death-rate in January was 252, in February 186, and in March 183.

Deaths of children of less than one year old numbered 1937. The births in these eight towns during the quarter numbered 12,069, and thus the infantile mortality rate amounted to 160 per 1000 births. This rate is 16 more than that

for the previous quarter, and 17 more than that for the first quarter of last year. The infantile mortality rate for the quarter ranged from 194 in Perth, and 190 in Dundee, to 135 in Paisley. In Glasgow it was 164; in Leith, 159; in Aberdeen, 154; in Greenock, 146; and in Edinburgh, 144.

Of the total deaths registered in these eight towns during the quarter, 3654, or 37·5 per cent., were of children of less than five years of age; and 2600, or 26·7 per cent., were of persons of over sixty. The former are 716 more than in the previous quarter, and 709 more than in the first quarter of last year; the latter are 699 more than in the previous quarter, and 57 more than in the first quarter of last year.

Deaths from violent causes numbered 349; they are 66 more than in the previous quarter, and 6 more than in the corresponding quarter of last year; of them 3 were stated to be homicidal, 20 suicidal, and 326 accidental.

WEATHER.

The remarks immediately following, on the weather of the quarter, are extracted from the Meteorological Returns which appear in the Registrar-General's Monthly Reports, and refer more particularly to observations made in eight of the Principal Towns:—

January was characterised by a high mean pressure; an average mean temperature, with a slightly high mean daily range; an average mean rainfall; and an excess of winds from West and South West. *February* was characterised by a slightly high mean pressure; a very high mean temperature, with a slightly high mean daily range; a low mean rainfall; and a large excess of winds from West and North West. *March* was characterised by a rather low mean pressure; a low mean temperature, with a low mean daily range; a very high mean rainfall; a considerable excess of winds from South East and South.

Observations made *throughout Scotland* show that the mean height of the barometric column, reduced to sea-level and 32° Fahr., was 29·972 inches in January, 29·880 inches in February, and 29·750 inches in March. The mean temperature for the quarter was 38°·8, or 0°·3 above the average mean temperature for the corresponding quarter of the last ten years. The mean temperature in January was 37°·6; in February 40°·4; and in March 38°·3. The absolutely highest temperature recorded in January was 59°; in February 56°; and in March 56°. The absolutely lowest temperature recorded in January was 9°; in February 22°; and in March 10°. The mean number of days on which rain fell was 17 in January, 19 in February, and 20 in March; the mean amount collected was 3·92 inches in January, 3·05 inches in February, and 4·55 inches in March.

N.B.—Districts containing Parliamentary or Royal Burghs are printed in capitals, thus—EDINBURGH. Districts containing Police Burghs or Towns of 2000 Inhabitants and upwards are printed in small capitals, thus—CARLUKE. An asterisk "*" is prefixed to those Districts which have different names from the Parishes in which they are situated, or which comprise more, or parts of more than one Parish. The component parts of these Districts will be found on page 45. A dagger "†" is prefixed to those Districts which consist of only a part of the Civil Parish of the same name. † Return not received.

CONSTITUTION OF THE DISTRICTS DISTINGUISHED IN THE PRECEDING
TABLES BY AN ASTERISK (*).

No.	Districts.	Component Parts (Parishes).
2. Orkney.		
13	Birsay	Part of Harray and Birsay.
14	Deerness	Part of St Andrews and Deerness.
18	Harray	Part of Harray and Birsay.
22	North Ronaldshay	Part of Cross and Burness.
25	St Andrews	Part of St Andrews and Deerness.
26	Sanday	Lady, and part of Cross and Burness.
3. Caithness.		
37b	Keiss	Parts of Canisbay and Wick.
5. Ross and Cromarty.		
58	Applecross	(1) Part of Applecross; (2) Remainder of Applecross and part of Gairloch.
59b	Carnoch	Parts of Contin and Urray.
86b	Carloway	Parts of Barvas and Uig.
87	Lochs	Lochs and part of Uig.
6. Inverness.		
92b	Cannich	Parts of Kilmorack and Kiltarlity.
112	Kilmuir	(1) Part of Kilmuir; (2) Remainder of Kilmuir, and part of Snizort.
8. Elgin.		
135	Elgin	Elgin, and parts of New Spynie and St Andrews-Lhanbryde.
9. Banff.		
152	Enzie	Parts of Bellie and Rathven.
155b	Glenrinnes	Parts of Aberlour and Mortlach.
167	Seafield	Parts of Cullen and Rathven.
10. Aberdeen.		
171b	Ardallie	Parts of Cruden, Ellon, Longside, and Old Deer.
210b	Kinninmonth	Parts of Crimond, Longside, Lonmay, Old Deer, and Strichen.
217	Logie Coldstone and Cromar	Logie Coldstone and part of Glenmuick.
222b	Milbren	Parts of Fyvie and Monquhitter.
227b	New Pittligo	Parts of Aberdour, New Deer, Strichen, and Tyrie.
231	Peterculter	(1) Parts of Aberdeen and Peterculter; (2) Remainder of Peterculter.
237b	Savoch	Parts of Ellon, New Deer, Old Deer, and Tarves.
249b	Ythan Wells	Parts of Auchterless and Forgue.
11. Kincardine.		
266	Nigg	Nigg, and part of Aberdeen.
12. Forfar.		
282	Dundee	Dundee Combination and part of Mains and Strathmartine.
294b	Kilry	Parts of Glenisla and Lintrathen.
13. Perth.		
324	Aberfeldy	Parts of Dull, Kenmore, and Logierait.
330	Auchtergaven	Parts of Auchtergaven and Logiealmond.
331	Balquhidder	Balquhidder, and part of Comrie.
344	Dowally	Part of Dunkeld and Dowally.
349	Dunkeld	Part of Dunkeld and Dowally.
355b	Foss	Parts of Blair-Athol and Dull.
361	Killin	Parts of Kenmore and Killin.
375	Logiealmond	Parts of Logiealmond, Little Dunkeld, and Methven.
379	Meigle	Meigle, and part of Coupar-Angus.
386b	Persie	Parts of Alyth, Blairgowrie, and Kirkmichael.
387	Perth	Perth, and part of Kinnoull.
393b	Stanley	Parts of Auchtergaven, Kinclaven, and Redgorton.
394b	Strathfillan	Part of Killin.
394c	Tenantry	Parts of Blair-Athol and Moulis.
14. Fife.		
402	Anstruther-Easter	Anstruther-Easter, and part of Kilrenny.
417	Crail	Part of Crail and May Island.
423	Dunbog	Dunbog, and part of Flisk.
425	Dunino	Dunino, and part of Crail.
442	Kirkcaldy and Abbotshall	Part of Kirkcaldy and Dysart.
457b	Thornton	Part of Kirkcaldy and Dysart and of Markinch.
17. Stirling.		
473	Bonnybridge	Parts of Denny, Dunipace, and Falkirk.
488	St Ninians	Parts of St Ninians and Stirling.
490	Stirling	Parts of St Ninians and Stirling.

CONSTITUTION OF THE DISTRICTS—*continued.*

No.	Districts.	Component Parts (Parishes).
18. Dumbarton.		
496	Dumbarton	Dumbarton, and parts of Cardross and Old Kilpatrick.
19. Argyll.		
504	Ardochattan	Part of Ardochattan and Muckairn.
505	Ardnamurchan	(1) Parts of Ardnamurchan, and of Arisaig and Moldart.
506	Ballachulish, etc.	Parts of Kilmallie and Ardgour.
509	Cumlodden and Minard	Parts of Glassary and Inveraray.
515	Kilbrandon and Kilchattan	Kilbrandon and Kilchattan, and part of Jura.
517	Kilchrenan, etc.	(1) Parts of Kilchrenan and Dalavich, and Glenorchy and Inishall; (2) Remainder of Kilchrenan and Dalavich.
520	Kilmallie	Parts of Kilmallie and Ardgour.
525	Lismore	Lismore and Appin, and part of Ardgour.
526	Lochgilphead	Parts of Glassary and South Knapdale.
529	Muckairn	Parts of Ardochattan and Muckairn, and Glenorchy and Inishall.
535	Tarbert	Parts of Kilcalmonell, Saddell and Skipness, and South Knapdale.
536	Bowmore (or Kilarrow)	Part of Kilarrow and Kilmeny.
543	Kilmeny	Part of Kilarrow and Kilmeny.
545	Kinlochspelve	Part of Pennygown and Torosay.
547	Portmahaven	Part of Kilchoman.
548	Salen	Parts of Kilninian and Kilmore, and Pennygown and Torosay.
549	Tobermory	Part of Kilninian and Kilmore.
550	Torosay	Part of Pennygown and Torosay.
20. Bute.		
556	Lochranza	Parts of Kilbride and Kilmory.
21. Renfrew.		
559b	Bridge of Weir	Part of Houston and Killellan and of Kilbarchan.
572	Neilston	(1) Part of Neilston; (2) Remainder of Neilston and part of Paisley.
22. Ayr.		
576	Ardrossan	(1) Parts of Ardrossan and West Kilbride; (2) Remainder of Ardrossan.
578	Ayr (Alloway)	Parts of Ayr and Maybole.
584b	Crosshill	Parts of Kirkmichael, Kirkoswald, and Maybole.
595	Irvine	Irvine, and part of Dundonald.
603	Loudoun (Darvel)	Parts of Loudoun and Galston.
610b	Patna	Parts of Dalmellington, Dalrymple, Kirkmichael, and Straiton.
23. Lanark.		
622	Barony	Part of Glasgow.
626a	Cadder (Eastern district)	Parts of Cadder and Glasgow.
626b	Calderhead	Parts of Cambusnethan and Shotts.
644	Glasgow	Parts of Glasgow, Govan Combination, and Rutherglen.
25. Edinburgh.		
685	Edinburgh	Parts of Edinburgh and Colinton.
692	Leith	Leith and part of Edinburgh.

METEOROLOGICAL REPORT

FOR THE MONTHS OF

JANUARY, FEBRUARY, MARCH,

1908.

REPORT ON THE WEATHER OVER SCOTLAND DURING THE
QUARTER ENDING 31st MARCH 1908.

By A. WATT, M.A., F.R.S.E., under the Direction of the Council of the Scottish
Meteorological Society.

THE Report is based on observations made, morning and evening, at Stations of the Scottish Meteorological Society, and at some additional stations whose returns are included by the courtesy of the Meteorological Office. The total number of contributing stations is 66. For list of Observers, see page 68.

SUMMARY OF OBSERVATIONS.

In Table I., the means for the various elements are the arithmetical means of the values at all the contributing stations. That for rainfall does not represent the whole country in a quite satisfactory manner, as stations are more numerous in dry districts than in wet districts: the figures, however, are fairly comparable with the corresponding figures given for former years.

Table II. refers to the eight large towns only, and is extracted from the Monthly Reports already published by the Registrar General for Scotland.

TABLE I.—MEANS FOR ALL SCOTLAND.

And when the figures in Table I. and those of wind-direction in Table II. are compared with the averages of 1856–1905, during the same months, they show the following characteristics and differences:—

JANUARY 1908—

Mean Barometric Pressure, 29·972 inches; greater than the average by 0·169 inch.

Mean Temperature, 37·6; greater by 0·3.

Mean Daily Range of Temperature, 10°·0; greater by 0·8.

Rain, Number of Days, 17; being the average.

Rain, Depth in Inches, 3·92; greater by 0·08 inch.

Wind, Direction of: a 3 days' excess of winds from S.W. and W.

FEBRUARY 1908—

Mean Barometric Pressure, 29·880 inches; greater than the average by 0·034 inch.

Mean Temperature, 40·4; greater by 2°·2.

Mean Daily Range of Temperature, 10°·3; greater by 0·1.

Rain, Number of Days, 19; greater by 4 days.

Rain, Depth in Inches, 3·05; less by 0·02 inch.

Wind, Direction of: a 10 days' excess of winds from W. and N.W.

MARCH 1908—

Mean Barometric Pressure, 29·750 inches; less than the average by 0·059 inch.

Mean Temperature, 38·3; less by 1°·3.

Mean Daily Range of Temperature, 11°·0; less by 1°·1.

Rain, Number of Days, 20; greater by 4 days.

Rain, Depth in Inches, 4·55; greater by 1·64 inch.

Wind, Direction of: a 5 days' excess of winds from S.E. and S.

JANUARY 1908—

Hence the month of JANUARY 1908 was characterised by a high mean pressure ; a mean temperature fractionally above the average, with a slightly high mean daily range ; a mean rainfall just about the average ; and an excess of winds from South West and West.

The mean pressure was 29·972 inches, or 0·169 inch above the normal. On 6th a deep depression passed eastwards across the extreme North of Scotland, but generally low pressure areas that influenced our weather lay far to the north of our Islands. At Leith the barometer remained above 30 inches from 1st to 5th, from 10th to 14th, and from 18th to 25th, the extremes there being 30·542 inches on 2nd and 29·167 inches on 28th.

The mean temperature was 37°·6, or 0°·3 above the normal, the days being 0°·7 above and the nights 0°·1 below their respective averages. The opening days were very cold, the actually lowest temperatures for the month in practically all mainland districts occurring between 2nd and 5th. The lowest shade temperatures recorded were 9° at Drumlanrig on 5th, and 10° at West Linton on 4th and at Balmoral on 5th, whilst on the latter day the exposed thermometer at Balmoral fell to within 1° of zero. On 6th—the warmest day of the month in one or two districts—an abrupt rise of temperature took place under the influence of strong South Westerly winds, the morning readings on that day being higher than those of the 5th by 20° at many places, by 25° at Crathes and by as much as 30° at Balmoral. Colder weather followed some days later with a recurrence of South Westerly winds and high temperatures around 17th, which was in general the warmest day of the month. Thereafter, fluctuations were less important, rather mild conditions prevailing until about the close of the month. The highest shade readings were 59° at Gordon Castle on 17th, and 55° at Nairn on that day, and at Duns and Marchmont on 6th.

The mean rainfall was 3·92 inches, or 2 per cent. above the normal. Along a fairly wide belt between the Firths of Forth and Clyde there was a moderate excess, amounting to 28 per cent. at Paisley, and towards North West a slight excess, whilst Eastern districts generally experienced a shortage, Aberdeen having only about half its normal amount. On 5th, heavy falls occurred in Western and Central districts (2·65 ins. at Lochbuie and 2·17 ins. at Greenock), and on 7th large amounts were general in the East, the Lothians and Border Counties having more than 1 inch. After several fine days, heavy rains again occurred towards West and North West from 13th to 17th, Fort William having 1½ inch on 14th, and an aggregate of more than 5 inches for these five days. The last week of the month was wet, except in some Eastern districts, with some heavy falls on 25th and 26th. The totals for the month ranged from 11·02 inches at Fort William to just over 1 inch at Aberdeen. At Baltasound rain fell on 29 days.

Gales, occasionally very severe, and usually from South West, were more or less general on 6th and 7th, from 15th to 17th, and during the last week of the month. Sleet and snow were common around the 6th, but to no great depth, whilst very heavy falls were experienced in the North from 27th onwards.

Thunderstorms in Orkney and Shetland on 26th ; at Fort William and Glencarron on 27th ; and at Glencarron on 31st. Lightning rather widely noted on these dates.

Sunshine amounts differed little from the normal, though slightly in excess in the East.

Fog in the Firth of Forth from 2nd to 5th, and on some later days ; but little reported elsewhere.

Auroras noted at Baltasound on 5th, and at Deerness on 8th.

FEBRUARY 1908—

Hence the month of FEBRUARY 1908 was characterised by a slightly high mean pressure ; a very high mean temperature, with an average mean daily range ; an average mean rainfall ; and a large excess of winds from West and North West.

The mean pressure was 29·880 inches or 0·034 inch above the normal. During the first half of the month, barometric fluctuations were unimportant, but thereafter conditions were very unsettled, especially on 17th, from 21st to 23rd, and from 26th to 29th. On 22nd and 28th the barometer fell below 29 inches, falling to 28·17 inches at Sumburgh Head on the evening of 22nd. At Leith the extremes were 30·659 inches on 6th, and 28·866 inches on 28th.

The mean temperature was 40°·4, or 2°·2 above the normal, the days being 2°·2 and the nights 2°·1 above their respective averages. The excess was nearly everywhere well marked, but Shetland had hardly its average temperature. Variations were unusually moderate for a winter month. The opening days were somewhat cold, but for about three weeks decidedly mild conditions prevailed with but trifling interruptions, whilst during the cold weather of the last few days when North Westerly winds prevailed, only Bowhill, in Ayrshire, which stands at a considerable elevation, reported as much as 10° of frost in shade. The actual shade extremes were 56° at Loanhead (Logie Coldstone) and Crathes on 7th, and 22° at Bowhill on 28th and 29th.

The mean rainfall was 3·05 inches, or 1 per cent. below the normal. Areas of excess and defect were well marked. Thus to the east of lines running from Peterhead to Greenock and thence to about Kirkeudbright, rainfall was in general deficient, whilst elsewhere it was above the average. In the wet regions the excess was most pronounced towards the North (84 per cent. at Dunrobin, and 73 per cent. at Nairn), whilst at some North Western stations rain fell on every day of the month. The largest total was 10·44 inches at Glencarron. In Eastern districts some coast stations had less than 1 inch

of rain (Arbroath 0·55 inch and Dundee 0·66 inch), whilst the absence of heavy falls was remarkable, several places not having as much as a quarter of an inch on any one day. Outside the North West Highlands but little rain fell during the first half of the month, whilst the heaviest general falls occurred on 21st and 22nd, Fort William having amounts of more than 1 inch on each of these days. Except in some Eastern districts, rain, sleet or snow fell daily from 21st onwards, Dunrobin registering 1·32 inch on 29th.

A severe gale from the West occurred on 22nd, with rain, hail and sleet. Snow at the beginning of the month was restricted chiefly to the North, but during the last two or three days a severe snowstorm was general, and by the afternoon of 29th the West Highland Railway was completely blocked on the Moor of Rannoch.

Thunderstorms in South East, South, and in some Western districts, accompanied the gale of 22nd, and, here and there, the snowstorm at the close of the month.

Sunshine was above the average, except in North and North West. Amounts of more than 100 hours at Aberdeen, Crathes and Balruddery were in excess of those in the south of England (*e.g.*, Balruddery 112 hours, Brighton 92, Bournemouth 73, Jersey 68).

But little coast fog was reported.

Auroras noted at Baltasound on 8 days.

MARCH 1908—

Hence the month of MARCH 1908 was characterised by a rather low mean pressure; a low mean temperature, with a low mean daily range; a very high mean rainfall; and a considerable excess of winds from S.E. and S.

The mean pressure was 29·750 inches, or 0·059 inch below the normal. The barometric fluctuations were at times very considerable, the deepest depressions that influenced our area occurring on 5th to 6th, 8th to 9th, 22nd, 27th and 30th. At Leith pressure was above 30 inches only from 12th to 15th, on 18th and 19th and from 24th to 26th, the extremes there being 30·227 inches on 14th and 28·676 inches on 9th.

The mean temperature was 38°·3, or 1°·3 below the normal, the days being 1°·8 and the nights 0°·7 below their respective averages. The general mean for the month was 2°·1 below that for February, though in the Northern Islands, where there was a slight temperature excess, the month was warmer than its predecessor. Generally speaking, much cold weather was experienced, the first and third weeks being especially cold with very low day temperatures at times. During the first three weeks the sheltered thermometer at Balmoral reached 40° on only five days, and even at Leith it remained below that level from 3rd to 6th and on 18th and 19th. Lowest temperatures occurred, as a rule, on 5th, but in some districts on 13th or about 20th, the lowest shade reading being 10° at Balmoral on 5th, when an exposed thermometer at that place fell to 4°. Highest readings occurred, as a rule, on 23rd, when Nairn, Glasgow, Leith and Dumfries reached 56°, and from that date onwards rather milder conditions prevailed.

The mean rainfall was 4·55 inches, or 57 per cent. above the normal. This general rainfall has been exceeded in March during the last thirty years only in 1897 and 1903. Glencarron had a moderate shortage, but most stations had rainfalls above the normal by at least 50 per cent., whilst several, such as Dundee, Marchmont and Drumlanrig, had more than twice the average. At Dundee the month was the wettest March for at least forty years. From 11th to 21st there were many fine days, some districts being practically rainless during that period, but outside these dates conditions were more or less unsettled. Some heavy falls occurred between 6th and 9th (1·46 inch at Greenock on 8th, and 1·80 inch at Lochbuie on 9th). On 24th many widely scattered places, such as Dunrobin, Dundee, Edinburgh, Fort William, Colmonell and Dumfries, had more than 1 inch, whilst on each of the three days, 28th, 29th and 30th, Fort William had falls exceeding 1 inch, Bendamph (Loch Torridon) had 1·85 inch on 28th, and Stronvar 1½ inch on 28th and also on 30th.

Winds of gale force, and as a rule from between S.E. and S.W., prevailed more or less generally on 8th and 9th, on 22nd and 23rd, and from 28th to 31st. Early in the month sleet and hail were frequent, with a continuance in Northern districts, on the first day or two, of the snowstorm with which February closed. Again, towards the end of the month, snow and hail occurred in many districts.

Thunder at Gordon Castle on 1st and 31st, and at Colmonell on 30th.

On 18th Edinburgh experienced a thick yellow fog, whilst hardly any coast fog occurred except about the middle of the month in the Firth of Forth.

Sunshine was somewhat above the average in the North, but in most districts deficient.

Auroras more or less widely observed on 1st, 2nd, 26th, 27th, 28th, and 29th.

Note.—The averages for Temperature and Rainfall referred to in the returns for individual stations are for the 40 years 1866–1905, but at the 6 stations whose returns are supplied by the Meteorological Office the averages are for the 35 years 1870–1905. For stations where the actual observations do not cover the entire period of 35 or 40 years, the averages have been adjusted by comparison with neighbouring stations. The Sunshine averages are, as a rule, for the 25 years 1880–1905, but at Edinburgh (Blackford Hill) for the 8 years 1901–1908.

The amount of cloud is estimated on a scale of 0–10, and a day is reckoned as a day of “clear sky” if the average of the estimates at the hours of observation is less than 2, and as an “overcast” day if the average is greater than 8.

REGISTRARS' NOTES.

IN compliance with the following Instructions, many of the Registrars have appended remarks to their Returns, from which the subjoined Notes have been selected. The Registrars alone must be considered responsible for the opinions which they express.

INSTRUCTIONS TO REGISTRARS.

"If, at any time, the Births (whether legitimate or illegitimate), the Deaths, or the Marriages registered during the Quarter have been above or below the average, here state what you consider to be the cause, and whether epidemics, such as Measles, Typhus, Cholera, etc., have prevailed in the District; or if there is any other fact in the character of the Weather, Sanitary or Social Arrangements, Movement of the Population, etc., which will account for the circumstance."

The Figures refer to the Numbers of the Districts in the preceding Tables.

I. NORTHERN DIVISION.

2. Orkney.

23. ORPHIR.—An epidemic of influenza has been prevalent in the parish for several weeks.

24. ROUSAY AND EGILSHAY.—Hooping-cough has been prevalent.

4. Sutherland.

44 (2). STOER.—The average age of the ten persons whose deaths were recorded during January and February was 83 years.

45. CLYNE.—Of the eight deaths registered during the quarter, six were those of young children. Four of the latter deaths were due to hooping-cough, the cases being amongst the fishing population.

II. NORTH-WESTERN DIVISION.

5. Ross and Cromarty.

Mainland.

58. APPLECROSS.—The two deaths registered in the quarter were of persons aged 69 and 71 years respectively. Measles prevalent in this district, but of a mild type.

71 (1). KINCARDINE.—The ages of the persons whose deaths were registered were 80, 75, 82, and 86 respectively.

79. RESOLIS.—There have been no deaths in this parish during the quarter, and on looking up the registers I find that this has not occurred for a first quarter since 1855.

Insular.

86b. CARLOWAY.—Three cases of drowning and one of suicide were registered during March.

6. Inverness.

Mainland.

95. DAVIOT AND DUNLIGHTY.—Measles and whooping-cough prevalent in the parish during the quarter, one death, that of a child, being caused by the latter.

96b (1). DUTHIL.—Of the twelve deaths registered, seven were of persons aged over 70 years, and three of persons aged under 12.

97 (2). KNOYDART.—The one death occurred from phthisis.

107 (1). URQUHART.—The number of deaths registered is the greatest, with one exception, recorded for any first quarter since the passing of the Registration Act. Fourteen of the twenty deaths registered were of persons whose ages averaged over 80 years.

Insular.

111 (1). NORTH HARRIS.—One of the deaths registered was that of a man aged 98 years.

111 (3). BERNERA.—Two of the three deaths registered were those of twins prematurely born.

113. NORTH UIST.—Whooping-cough has been in the parish for the last eight months. One case proved fatal.

114. PORTREE.—Of the seven deaths registered, five were of persons whose ages ranged from 76 to 97 years.

III. NORTH-EASTERN DIVISION.

8. Elgin.

131 (1). BURGHEAD.—The deaths are much above the average, measles being very prevalent amongst children during the first two months. Twelve deaths have resulted therefrom.

9. Banff.

150. CULLEN.—Deaths much above the average, being mostly those of old people. Births considerably below the average.

157 (2). GLENLIVET.—The five deaths recorded in January and February were those of old people whose ages ranged from 71 to 92 years.

10. Aberdeen.

201. GLENMUCK, TULLICH, and GLENGAIRN.—Two of the deaths resulted from accidents, and five of the others were of persons whose ages ranged from 71 to 83 years.

217. LOGIE COLDSTONE and CROMAR.—Measles of a mild type prevalent during the quarter, but no case proved fatal. Of the four deaths registered, the oldest was that of a man aged 88 years.

222b. MILLBEX.—Of the eleven persons whose deaths were registered, four were aged over 80 and one over 90. The average age was 70·4.

243. TARVES.—Births and deaths both much above the average. In the beginning of the quarter influenza was very prevalent in the parish, and in March there was an epidemic of measles.

11. Kincardine.

265. MARYKIRK.—Of the two persons whose deaths were registered, one was 75, and the other 93 years old.

IV. EAST-MIDLAND DIVISION.

12. Forfar.

269. ABERLEMNO.—Of the five deaths registered, two were those of old people, the causes of death being spinal meningeal hæmorrhage and cerebral apoplexy respectively.

289. GLAMIS.—Two of the births registered in February were of twin children. The five deaths were all of men, each of whom was certified as having died of "Old Age." Their ages averaged 80 years.

294. KETTINS.—In March one death was due to cerebro-spinal fever, and another to an accident.

311. MONIKIE.—An epidemic of measles, followed by whooping-cough and pneumonia, caused the deaths of six children, whose ages ranged from 10 weeks to 10 years. They occurred in one corner of the parish and within a radius of half a mile.

13. Perth.

326. ABERNETHY.—The deaths registered during the quarter outnumbered the births, a result probably due to the prevalence of influenza during the first two months of the year. The aged were most affected. Excluding the death of an infant, the ages of the persons whose deaths were registered during January and February averaged 77·6 years.

339. CLUNIE.—One of the deaths in March was that of a navy who died from exposure.

358. GLENDEVON.—The death registered in February was that of a navy who was found dead, exposure being the cause.

375. LOGIEALMOND.—Measles very prevalent in the district, the Public School having had to be closed in consequence.

376. LOGIERAIT.—The illegitimate child whose birth was registered was born in the Combination Poorhouse, the mother being a pauper from Clunie Parish.

386a. MUTHILL.—Of the nine deaths registered, eight were of persons whose ages ranged from 67 to 90 years.

387. PERTH (Burghal).—Deaths above the average. The mortality has chiefly been among children—due to hooping-cough, measles, and broncho-pneumonia—and among old people.

387. PERTH (Landward).—Three of the deaths were those of persons belonging to Perth, who died in the Burgh Isolation Hospital. The death in March was that of a female aged 90 years.

388. PORT OF MENTEITH.—Two of the four births registered in January were of twins. Of the seven deaths, one was sudden, and five were those of elderly people whose ages ranged from 62 to 85 years.

14. Fife.

408. BALLINGRY.—The abnormal increase in births, deaths, and marriages is due to the influx of population, a result of mining developments in the parish.

434. KENNOWAY.—Deaths are above the average. Four of the seventeen were of infants only a few days old, while eight were of persons aged over 70 years.

452. PITTENWEEM.—The death-rate is abnormal. Of the twelve females whose deaths were registered, the ages of five ranged from 71 to 86 years.

455. SALINE.—Measles prevalent in the district, but of a mild type. No deaths therefrom.

456. SCOONIE.—One of the deaths was that of a male aged 95.

V. WEST-MIDLAND DIVISION.

17. Stirling.

477. DRYMEN.—The only deaths recorded were registered in March and consisted of four persons aged 44, 77, 73, and 77 years respectively.

481b (3). POLMONT.—While the number of births and deaths registered during the quarter is about an average, the number of each registered during March creates a record.

18. Dumbarton.

492. ARROCHAR.—In sixteen months there have been only two deaths (of aged people) out of a population of 600.

19. Argyll.

Mainland.

514. INVERCHAOLAIN.—The severity of the weather accounts for four of the five deaths, the fifth being that of an infant three days old, who died of internal hæmorrhage.

517 (2). DALAVICH.—The death recorded was by drowning.

521. KILMARTIN.—Epidemic scarlatina latent since October, but now stamped out. No deaths.

526. LOCHGILPHEAD.—There has been a decrease of ten births, and an increase of thirteen deaths compared with the corresponding quarter of last year. Seven of the persons whose deaths were registered were over 70 years of age, and three were over 80.

529. MUCKAIRN.—Of the six deaths registered during the quarter, five were of persons whose ages averaged 81·4 years. One of them had attained the age of 98.

Insular.

537. GIGHA AND CARA.—The male death registered in February was that of a seaman from Islay who met his death by drowning.

20. Bute.

553 (2). KILBRIDE.—Of the twelve deaths registered, three were of young men who were drowned through their smack being run down. Four of the five females whose deaths were registered were aged over 70 years. A mild type of influenza was very prevalent, but no deaths resulted.

VI. SOUTH-WESTERN DIVISION.

21. Renfrew.

572 (2). BARRHEAD AND LEVERN.—The deaths during February have been exceptionally numerous, even after deducting those which occurred in the Poorhouse. Only once, in 1905, has the number been exceeded during the last 20 years.

22. Ayr.

578 (3). ALLOWAY.—Of the thirty-two deaths registered during the quarter, twenty-four were inmates of Ayr District Asylum. There was no epidemic other than influenza in the district.

582 (1). COLMONELL.—The six persons whose deaths were registered during the quarter were aged 35, 72, 79, 94, 70, and 97 years respectively.

593. GALSTON.—Of the thirty deaths, fourteen were of children aged under two years, and six of persons aged over 70.

607. MUIRKIRK.—Deaths are eleven fewer and births nine fewer than in the corresponding quarter of last year.

23. Lanark.

624. BLANTYRE.—Measles has been prevalent in the district during the past two or three weeks. Of the eighty-two deaths registered, thirty were of children aged under one year, and only five of persons aged over 70, the latter including a female aged over 100 years.

625 (1). BOTHWELL.—Deaths have been mainly due to measles, pneumonia, and hooping-cough.

625 (3). BELLSHILL.—Death-rate for quarter very high amongst children under 5 years of age, measles and broncho-pneumonia being the chief causes.

628. CAMBUSNETHAN.—There has been an epidemic of measles in the parish, and most of the deaths have resulted therefrom.

643. EAST KILBRIDE.—An epidemic of hooping-cough was prevalent here during the past quarter, no less than seven deaths being due thereto. There were also two deaths from cerebro-spinal meningitis.

VII. SOUTH-EASTERN DIVISION.

24. Linlithgow.

665. DALMENY.—Fatal accidents, in the pit and otherwise, account for the large number of deaths in February.

25. Edinburgh.

674. BORTHWICK.—An epidemic of measles broke out in January, and spread over the whole parish, one death resulting therefrom. Of the other six persons whose deaths were registered, the ages of five ranged from 69 to 85 years.

677. COLINTON.—Four of the illegitimate births, and seventy of the deaths, occurred in Craighlockhart Poorhouse.

680. CRANSTOWN.—Influenza has been epidemic here this winter, and has accounted for two of the deaths registered during the past quarter.

685 (5). NEWINGTON.—The deaths registered include that of an unmarried woman aged 101 years. She spent most, if not the whole, of her life in town, and but for an attack of influenza might have added some years to her life.

686. FALA AND SOUTRA.—Influenza prevalent during quarter, and deaths more than the average.

698a. RATHO.—Two of the deaths were of children aged under one year, and three of persons aged 76 years and upwards.

26. Haddington.

705. DIRLETON.—Of the ten deaths, three were of persons whose ages averaged 80 years, and two of children aged 2 years.

27. Berwick.

736. EARLSTON.—Five of the deaths were of persons whose ages ranged from 75 to 95 years. Among them was the late Registrar, who had held office for fifty-three years, and who had reached the age of 80 years.

737. ECCLES.—An epidemic of influenza accounts for two of the seven deaths.

28. Peebles.

760. EDDLESTON.—The death recorded was that of a woman aged 81 years. Several cases of measles of a mild type occurred during the quarter.

762 (1). INNERLEITHEN.—Deaths for the quarter are very few, the ages at death being 3 and 89 years respectively.

29. Selkirk.

778. SELKIRK.—Of the persons whose deaths were registered, ten were aged over 70 years, and four under nine months.

VIII. SOUTHERN DIVISION.

30. Roxburgh.

783. BOWDEN.—The average age of the persons whose deaths were registered was 73.

784. CASTLETON.—The excess of deaths over the average is due to an epidemic of influenza.

785 (2). KIRKTON.—Influenza prevalent, also mumps among children. School attendance much reduced in March.

795. LILLIESLEAF.—The only death recorded was that of a female aged 76 years.

799 (1). MELROSE.—Of the thirty-four deaths, eleven occurred in the District Asylum.

31. Dumfries.

837 (2). KIRKPATRICK-FLEMING (Southern).—Of the seven deaths registered, five were of persons aged from 66 to 83, one was that of an infant who died from accidental burning injuries, and the other that of a poorhouse inmate belonging to another parish.

32. Kirkcudbright.

862. CORSOCK BRIDGE.—The deaths are those of persons aged 66 and 73 years respectively.

872. KIRKGUNZEON.—This return, showing no entries, is unique in an experience extending over forty years.

877. NEW ABBEY.—Four of the seven deaths were of old people, and two of young children.

878. PARTON.—The only death registered was that of a woman aged 90 years.

880. TERREGLES.—One of the females whose death was registered was aged 90 years.

882. TROQUEER.—Hooping-cough prevalent during February and March. One death therefrom.

33. Wigtown.

885. GLASSERTON.—One of the deaths was that of a child aged 6 years, who died from measles.

INDEX TO THE DISTRICTS.

* The actual number of Districts is 1078—many Parishes and Burghs having been divided into two or more Districts for the purpose of Registration. Thus Edinburgh and Glasgow, to each of which only a single number is assigned in the Tables, consist of 7 and 18 Districts respectively. In forming the alphabetical arrangement the principle adopted has been to place *compound* names in the order in which they are pronounced.

1908.

REPORT.

During the quarter ending 30th June 1908 there were registered in Scotland the births of 35,611 living children, the deaths of 19,499 persons, and 8813 marriages. These births are 3108 more than those registered in the first quarter of the year, and 1100 more than those registered in the second quarter of the year 1907. These deaths are 4498 fewer than those registered in the first quarter, and 620 fewer than those registered in the second quarter of last year. These marriages are 1222 more than those registered in the first quarter, but 51 fewer than those registered in the second quarter of last year. Compared with the average number of births, deaths, and marriages registered in the second quarter of the previous ten years, those averages being adjusted to allow for the estimated increase of population, the births are 1406 fewer, the deaths 1378 fewer, and the marriages 135 fewer.

TABLE I.—BIRTHS, DEATHS, and MARRIAGES in SCOTLAND, its Groups of Districts, and Divisions during the Quarter ending 30th June 1908, with their Proportion to the Population; also the Illegitimate Births, and their Proportion to the Total Births.

BIRTHS.

The total number of births registered during the quarter was 35,611, for which the equivalent annual birth-rate is 29·6 per thousand of the estimated population, a rate which is 2·6 more than that for the previous quarter, and 0·6 more than that for the second quarter of last year, but is 1·2 less than the mean of the birth-rates for the second quarter of the previous ten years. With the exception of the birth-rate for the second quarter of 1907, the birth-rate for this quarter is less than that for any previous second quarter.

In the groups of registration districts the birth-rate varied from 33·4 in the

Large Town districts, to 17·5 in the Insular-Rural districts. In the Small Town districts it was 31·3, in the Principal Town districts 29·7, and in the Mainland-Rural districts 26·6. In each of these groups of registration districts, the Large Town districts excepted, the birth-rate was higher than in the second quarter of last year.

In the divisions of the counties the birth-rate for the quarter ranged from 32·9 in the South-Western, to 19·7 in the Northern and North-Western. In the West-Midland it was 30·3; in the East-Midland, 28·1; in the South-Eastern, 27·5; in the North-Eastern 27·3; and in the Southern, 25·1.

In the eight principal towns this rate ranged from 33·3 in Greenock to 23·6 in Edinburgh. In Paisley, it was 30·9; in Glasgow, 30·8; in Dundee, 30·7; in Leith, 29·4; in Aberdeen, 26·0; and in Perth, 25·5. In Dundee, Aberdeen, and Leith the birth-rate for the quarter was less than that for the second quarter of the previous year, but in the other six principal towns the birth-rate was higher than in that quarter.

TABLE II.—Percentage of the Illegitimate Births to the Total Births in the Counties of Scotland during the Quarter ending 30th June 1908.

Counties.	Per Cent.	Counties.	Per Cent.	Counties.	Per Cent.
Shetland	3·3	Forfar	9·2	Lanark	5·4
Orkney	9·6	Perth	7·6	Linlithgow	3·5
Caithness	7·7	Fife	4·4	Edinburgh	6·4
Sutherland	11·0	Kinross	10·2	Haddington	4·2
Ross and Cromarty	7·9	Clackmannan	4·2	Berwick	9·5
Inverness	7·1	Stirling	3·7	Peebles	5·9
Nairn	13·0	Dumbarton	4·1	Selkirk	6·2
Elgin	9·2	Argyll	7·1	Roxburgh	10·3
Banff	10·8	Bute	6·2	Dumfries	10·1
Aberdeen	11·8	Renfrew	4·3	Kirkcudbright	9·9
Kincardine	12·6	Ayr	6·2	Wigtown	15·7

Of the total births, 2267, or 6·4 per cent., were illegitimate. These births are 145 more than those registered in the previous quarter, and 23 more than those registered in the second quarter of last year; but the illegitimate rate is 0·1 less than that for the previous quarter, and the same amount less than that for the corresponding quarter of last year. The illegitimate rate ranged from 8·4 per cent. in the Mainland-Rural districts to 4·8 per cent. in the Large Town districts. In the Principal Town districts it was 6·3; in the Small Town districts, 5·9; and in the Insular-Rural districts, 4·9. In the divisions of the counties this rate varied from 11·5 in the North-Eastern, and 11·2 in the Southern, to 4·4 in the West-Midland. In the Northern it was 7·7; in the North-Western, 7·5; in the East-Midland, 6·8; in the South-Eastern, 5·9; and in the South-Western, 5·3. In the counties the illegitimate rate ranged from 15·7 in Wigtown, 13·0 in Nairn, 12·6 in Kincardine, 11·8 in Aberdeen, and 11·0 in Sutherland; to 3·3 in Shetland, 3·5 in Linlithgow, 3·7 in Stirling, and 4·1 in Dumbarton. In nine counties this rate

was more than 10 per cent.; in sixteen counties it was between 5 and 10 per cent.; in eight counties it was less than 5 per cent.

Of the living children whose births were registered during the quarter,

18,035 were male, and 17,576 female. The ratio of male to female children was 102·6 to 100.

The average number of births registered daily in April was 395, in May 378, and in June 401.

The birth-rate for the quarter in England and Wales was 27·7, which is 1·9 less than the Scottish birth-rate.

DEATHS.

Deaths registered during the quarter numbered 19,499, for which the equivalent annual death-rate is 16·2 per thousand of the estimated population, a rate which is 3·8 less than that for the previous quarter; 0·7 less than that for the second quarter of 1907; and 1·2 less than the mean of the death-rates for the second quarter of the previous ten years. It is less than the death-rate for all previous second quarters, with the exception of that for the year 1905.

In the groups of registration districts the death-rate for the quarter varied from 17·9 in the Insular-Rural districts, to 15·9 in the Principal Town districts. In the Large Town districts it was 17·6, in the Mainland-Rural districts 16·1, and in the Small Town districts 16·0. The death-rate in the Principal Town districts is less than that for the second quarter of last year, but the death-rates of the other four groups of registration districts are each higher than the corresponding death-rate for the second quarter of that year.

This is the first time in any quarterly or Annual Report that the death-rate of the Principal Town districts is reported to be less than the national death-rate, and the first time the Principal Town death-rate is reported to be the lowest of the death-rates of the five groups of registration districts. In the third quarter of 1907 the death-rate of the Principal Town districts was for the first and only time the same as the national death-rate, but, as above stated, in no previous quarter was the death-rate of that group of registration districts less than the national death-rate. The approximation of the Scottish urban and rural death-rates has previously been commented on in the reports issued from this office. For many years the death-rate of the Principal Towns was about ten per thousand more than the death-rate of the Mainland-Rural districts, but since 1875 that difference has been a diminishing one, and it is not without interest to note that in this quarter the Principal Town death-rate is not only not greater than that of the Mainland-Rural districts, but is actually less.

In the divisions of the counties the death-rate for the quarter varied from 19·2 in the Northern to 15·0 in the North-Eastern. In the Southern it was 17·1; in the North-Western, 16·9; in the South-Western, 16·8; in the West-Midland, 16·5; in the East-Midland, 15·4; and in the South-Eastern, 15·2.

The death-rate for the quarter in the Eight Principal Towns ranged from 17·1 in Glasgow to 13·6 in Leith. In Dundee it was 16·9; in Perth, 16·8; in Greenock, 16·2; in Edinburgh, 15·5; in Paisley, 15·1; and in Aberdeen, 13·8. In each of these towns the death-rate for the quarter was less than the death-rate for the second quarter of the previous year.

Of the total deaths for the quarter, 9787 were of males, and 9712 of females.

The average number of deaths registered daily in April was 242, in May 208, and in June 193.

The death-rate for the quarter in England and Wales was 13·8, which is 2·4 per thousand less than the Scottish rate.

MARRIAGES.

Marriages registered during the quarter numbered 8813. The equivalent annual marriage-rate is 7·3 per thousand, a rate which is 1·0 more than that for the previous quarter, but 0·1 less than that for the second quarter of last year, and 0·1 less than the mean of the marriage-rates for the second quarter of the previous ten years.

In the groups of registration districts the marriage-rate varied from 8·7 in the Principal Town districts, to 1·8 in the Insular-Rural districts. In the Large Town districts it was 7·6; in the Small Town districts, 6·4; and in the Mainland-Rural districts, 5·5. In the divisions of the counties the marriage-rate varied from 8·9 in the South-Eastern, to 3·5 in the Northern. In the South-Western it was 7·8; in the Southern, 7·7; in the East-Midland, 6·9; in the North-Eastern, 6·7; in the West-Midland, 5·6; and in the North-Western 3·7.

The average number of marriages registered daily in April was 90, in May 35, and in June 168.

CAUSES OF DEATH IN EIGHT OF THE PRINCIPAL TOWNS.

As 38 per cent. of the population of Scotland live in eight of the principal towns, namely, Glasgow, Edinburgh, Dundee, Aberdeen, Paisley, Leith, Greenock, and Perth, it may be assumed that the causes of death found to be prevalent in them during the quarter are a fairly good indication of the causes of death prevalent generally in Scotland during the quarter. Details of the causes of death in the remainder of Scotland are not yet available.

The estimated population of these eight towns is 1,839,038. Deaths in them during the quarter numbered 7393, for which the equivalent annual death-rate is 16·1 per thousand, a rate which is 5·1 less than that for the previous quarter, and 2·5 less than that for the second quarter of last year. The death-rate of these eight towns in April was 18·4, in May 15·6, and in June 14·5.

Deaths from the acutely infectious diseases numbered 621, of them 294 being registered in April, 190 in May, and 137 in June. The death-rate from these causes for the quarter was 1·36; that for April, 1·95; for May,

1.22; and for June, 0.91. This death-rate for the quarter is 1.56 less than that for the previous quarter, and 1.32 less than that for the second quarter of last year. These deaths include 265 from measles, which are 505 fewer than in the previous quarter, but 159 more than in the second quarter of last year; 44 from scarlet fever; 194 from whooping-cough, which are 114 fewer than in the previous quarter, and 397 fewer than in the second quarter of last year; 51 from diphtheria; 12 from enteric fever; 1 from pyrexia of uncertain origin; and 54 from cerebro-spinal meningitis, which are 32 fewer than in the previous quarter, and 349 fewer than in the second quarter of last year. The equivalent annual death-rate per 100,000 from measles is 58; from scarlet fever, 10; from whooping-cough, 42; from diphtheria, 11; and from cerebro-spinal meningitis, 12.

Deaths from diarrhœas, including those certified as due to enteritis and gastro-enteritis, numbered 175. They are 15 fewer than in the previous quarter, and 1 fewer than in the second quarter of last year. The equivalent annual death-rate from these causes is 38 per 100,000, a rate which is 3 less than that for the previous quarter, and 1 less than that for the corresponding quarter of last year. This death-rate in April was 38; in May, 42; and in June, 34.

Deaths from tuberculous disease in these eight towns numbered 1088; they are 9 fewer than in the previous quarter, and 183 fewer than in the second quarter of last year. The death-rate for the quarter from these diseases was 237 per 100,000, a rate which is 2 less than in the previous quarter, and 45 less than that for the second quarter of last year. These deaths include 657 from phthisis, 177 from tuberculous meningitis, 127 from tuberculous peritonitis, and 127 from other forms of tuberculous disease. The death-rate from phthisis was 143 per 100,000, a rate which is 13 less than that for the previous quarter, and 32 less than that for the second quarter of last year.

Deaths from malignant disease numbered 421; they are 51 fewer than in the previous quarter, and the same number fewer than in the second quarter of last year. The equivalent annual death-rate is 92 per 100,000, a rate which is 11 less than that for the previous quarter, and 13 less than that for the corresponding quarter of last year. Of these deaths 234 were ascribed to carcinoma, 23 to sarcoma, and 164 to other or unspecified forms of cancer.

Deaths from pneumonia numbered 721, they are 456 fewer than in the previous quarter, and 122 fewer than in the second quarter of last year. The equivalent annual death-rate from pneumonia was 157 per 100,000; a rate which is 100 less than that for the previous quarter, and 30 less than that for the corresponding quarter of last year. Of the 721 deaths from pneumonia, 303 were registered in April; 230 in May; and 188 in June.

Deaths from bronchitis numbered 481; they are 471 less than in the previous quarter, but 1 more than in the second quarter of last year. The death-rate from bronchitis was 105 per 100,000, a rate which is 103 less than that for the previous quarter, and 1 less than that for the corresponding quarter of last year.

Deaths from diseases and accidents of pregnancy and child-birth, including those due to puerperal septic conditions, numbered 64; they are 6 fewer than in

the previous quarter, and the same number fewer than in the second quarter of last year.

Deaths of children of less than one year old numbered 1457. Births during the quarter numbered 13,237, and thus the infantile mortality amounted to 110 per 1000 births, a rate which is 50 less than that for the previous quarter, and 11 less than that for the second quarter of last year. The infantile mortality rate for the quarter in the eight towns ranged from 118 in Aberdeen, to 84 in Leith. In Edinburgh it was 115; in Glasgow, 114; in Dundee, 106; in Greenock, 99; in Perth, 98; and in Paisley, 94.

Of the total deaths registered in these towns during the quarter, 2501, or 33·8 per cent., were of children of less than five years old; and 1942, or 26·3 per cent., were of persons of over sixty. The former are 1153, and the latter 658, fewer than in the previous quarter; the former are 414, and the latter 92, fewer than in the second quarter of last year.

Deaths from violence numbered 282; they are 67 fewer than in the previous quarter, and 33 fewer than in the corresponding quarter of last year. Of them 2 were stated to be homicidal, and 23 suicidal.

WEATHER.

The remarks immediately following, on the weather of the quarter, are extracted from the Meteorological Returns which appear in the Registrar-General's Monthly Reports, and refer more particularly to observations made in eight of the Principal Towns:—

April was characterised by a high mean pressure; an extremely low mean temperature, with a rather low mean daily range; a low mean rainfall; a large excess of winds from between North West and North East. *May* was characterised by a slightly low mean pressure; a decidedly high mean temperature, with a fractionally low mean daily range; a rainfall practically equal to the average; an excess of winds from a South-Westerly quarter. *June* was characterised by a high mean pressure; a slightly high mean temperature, with an average mean daily range; a slightly low mean rainfall; a slight excess of winds from North East and North West.

Observations made *throughout Scotland* show that the mean height of the barometric column, reduced to sea-level and 32° Fahr., was 29·986 inches in April, 29·899 inches in May, and 30·033 inches in June. The mean temperature for the quarter was 48°·9, or 0°·1 above the average mean temperature for the corresponding quarter of the last ten years. The mean temperature in April was 41°·2; in May 50°·7; and in June 54°·9. The absolutely highest temperature recorded in April was 68°; in May 81°; and in June 87°. The absolutely lowest temperature recorded in April was 9°; in May 30°; and in June 33°. The mean number of days on which rain fell was 15 in April, 18 in May, and 14 in June; the mean amount collected was 1·79 inches in April, 2·39 inches in May, and 2·21 inches in June.

[illegible]

N.B.—Districts containing Parliamentary or Royal Burghs are printed in capitals, thus—EDINBURGH. Districts containing Police Burghs or Towns of 2000 Inhabitants and upwards are printed in small capitals thus—CARLUKE. An asterisk (*) is prefixed to those Districts which have different names from the Parishes in which they are situated, or which comprise more or parts of several parishes. A dagger (†) is used when a District comprises more or parts of several parishes. A double dagger (‡) is used when a District comprises more or parts of several parishes and is a Royal Burgh.

CONSTITUTION OF THE DISTRICTS DISTINGUISHED IN THE PRECEDING
TABLES BY AN ASTERISK (*).

No.	Districts.	Component Parts (Parishes).
2. Orkney.		
13	Birsay	Part of Harray and Birsay.
14	Deerness	Part of St Andrews and Deerness.
18	Harray	Part of Harray and Birsay.
22	North Ronaldshay	Part of Cross and Burness.
25	St Andrews	Part of St Andrews and Deerness.
26	Sanday	Lady, and part of Cross and Burness.
3. Caithness.		
37b	Keiss	Parts of Canisbay and Wick.
5. Ross and Cromarty.		
58	Applecross	(1) Part of Applecross; (2) Remainder of Applecross and part of Gairloch.
59b	Carnoch	Parts of Contin and Urray.
86b	Carloway	Parts of Barvas and Uig.
87	Lochs	Lochs and part of Uig.
6. Inverness.		
92b	Cannich	Parts of Kilmorack and Kiltarlity.
112	Kilmuir	(1) Part of Kilmuir; (2) Remainder of Kilmuir, and part of Snizort.
8. Elgin.		
135	Elgin	Elgin, and parts of New Spynie and St Andrews-Lhanbryde.
9. Banff.		
152	Enzie	Parts of Bellie and Rathven.
155b	Glenrines	Parts of Aberlour and Mortlach.
167	Seafeld	Parts of Cullen and Rathven.
10. Aberdeen.		
171b	Ardallie	Parts of Cruden, Ellon, Longside, and Old Deer.
210b	Kinninmonth	Parts of Crimond, Longside, Lonmay, Old Deer, and Strichen.
217	Logie Coldstone and Cromar	Logie Coldstone and part of Glenmuick.
222b	Milnbre	Parts of Fyvie and Monquhitter.
227b	New Pitsligo	Parts of Aberdour, New Deer, Strichen, and Tyrie.
231	Peterculter	(1) Parts of Aberdeen and Peterculter; (2) Remainder of Peterculter.
237b	Savoch	Parts of Ellon, New Deer, Old Deer, and Tarves.
249b	Ythan Wells	Parts of Auchterless and Fergie.
11. Kincardine.		
266	Nigg	Nigg, and part of Aberdeen.
12. Forfar.		
282	Dundee	Dundee Combination and part of Mains and Strathmartine.
294b	Kilry	Parts of Glenisla and Lintrathen.
13. Perth.		
324	Aberfeldy	Parts of Dull, Kenmore, and Logierait.
330	Auchtergaven	Parts of Auchtergaven and Logiealmond.
331	Balquhiddie	Balquhiddie, and part of Comrie.
344	Dowally	Part of Dunkeld and Dowally.
349	Dunkeld	Part of Dunkeld and Dowally.
355b	Foss	Parts of Blair-Athol and Dull.
361	Killin	Parts of Kenmore and Killin.
375	Logiealmond	Parts of Logiealmond, Little Dunkeld, and Methven.
379	Meigle	Meigle, and part of Coupar-Angus.
386b	Persie	Parts of Alyth, Blairgowrie, and Kirkmichael.
387	Perth	Perth, and part of Kinnoull.
393b	Stanley	Parts of Auchtergaven, Kinclaven, and Redgorton.
394b	Strathallan	Part of Killin.
394c	Tenantry	Parts of Blair-Athol and Moulin.
14. Fife.		
402	Anstruther-Easter	Anstruther-Easter, and part of Kilrenny.
417	Crail	Part of Crail and May Island.
423	Dunbog	Dunbog, and part of Flisk.
425	Dunino	Dunino, and part of Crail.
442	Kirkcaldy and Abbotshall	Part of Kirkcaldy and Dysart.
457b	Thornton	Part of Kirkcaldy and Dysart and of Markinch.
17. Stirling.		
473	Bonnybridge	Parts of Denny, Dunipace, and Falkirk
483	St Ninians	Parts of St Ninians and Stirling.
490	Stirling	Parts of St Ninians and Stirling.

CONSTITUTION OF THE DISTRICTS—*continued.*

No.	Districts.	Component Parts (Parishes).
18. Dumbarton.		
496	Dumbarton	Dumbarton, and parts of Cardross and Old Kilpatrick.
19. Argyll.		
504	Ardochattan	Part of Ardochattan and Muckairn.
505	Ardnamurchan	(1) Parts of Ardnamurchan, and of Arisaig and Moldart.
506	Ballachulish, etc.	Parts of Kilmallie and Ardgour.
509	Cumlodden and Minard	Parts of Glassary and Inveraray.
515	Kilbrandon and Kilchattan	Kilbrandon and Kilchattan, and part of Jura.
517	Kilchrenan, etc.	(1) Parts of Kilchrenan and Dalavich, and Glenorchy and Inishail; (2) Remainder of Kilchrenan and Dalavich.
520	Kilmallie	Parts of Kilmallie and Ardgour.
525	Lismore	Lismore and Appin, and part of Ardgour.
526	Lochgillhead	Parts of Glassary and South Knapdale.
529	Muckairn	Parts of Ardochattan and Muckairn, and Glenorchy and Inishail.
535	Tarbert	Parts of Kilmalmonell, Saddell and Skipness, and South Knapdale.
536	Bowmore (or Kilarrow)	Part of Kilarrow and Kilmeny.
543	Kilmeny	Part of Kilarrow and Kilmeny.
545	Kinlochspelve	Part of Pennygown and Torosay.
547	Portnahaven	Part of Kilchoman.
548	Salen	Parts of Kilninian and Kilmore, and Pennygown and Torosay.
549	Tobermory	Part of Kilninian and Kilmore.
550	Torosay	Part of Pennygown and Torosay.
20. Bute.		
556	Lochranza	Parts of Kilbride and Kilmory.
21. Renfrew.		
559b	Bridge of Weir	Part of Houston and Killellan and of Kilbarchan.
572	Neilston	(1) Part of Neilston; (2) Remainder of Neilston and part of Paisley.
22. Ayr.		
576	Ardrossan	(1) Parts of Ardrossan and West Kilbride; (2) Remainder of Ardrossan.
578	Ayr (Alloway)	Parts of Ayr and Maybole.
584b	Crosshill	Parts of Kirkmichael, Kirkoswald, and Maybole.
595	Irvine	Irvine, and part of Dundonald.
603	Loudoun (Darvel)	Parts of Loudoun and Galston.
610b	Patna	Parts of Dalmellington, Dalrymple, Kirkmichael, and Straiton.
23. Lanark.		
622	Barony	Part of Glasgow.
626a	Cadder (Eastern district)	Parts of Cadder and Glasgow.
626b	Calderhead	Parts of Cambusnethan and Shotts.
644	Glasgow	Parts of Glasgow, Govan Combination, and Rutherglen.
25. Edinburgh.		
685	Edinburgh	Parts of Edinburgh and Colinton.
692	Leith	Leith and part of Edinburgh.
695b	New Craighall	Parts of Inveresk and Liberton.
698b	Stobhill	Parts of Borthwick, Cockpen, and Newbattle.
29. Selkirk.		
774a	Caddonfoot	Caddonfoot, and part of Innerleithen.
30. Roxburgh.		
787b	Edgerston	Parts of Jedburgh and Southdean.
31. Dumfries.		
813b	Brydekirk	Parts of Annan, Cummertrees, and Hoddam.
830	Holywood	Holywood, and part of Terregles.
853b	Wanlockhead	Part of Sanquhar.
32. Kirkcudbright.		
857b	Bargrennan	Parts of Minnigaff and Penninghame.
862	Corscobridge	Parts of Balmaclellan, Kirkpatrick-Durham, and Parton.
864	Dalbeattie	Part of Urr.
33. Wigtown.		
899	Stranraer	Stranraer, and parts of Inch and Leswalt.

METEOROLOGICAL REPORT

FOR THE MONTHS OF

APRIL, MAY, JUNE.

1908.

REPORT ON THE WEATHER OVER SCOTLAND DURING THE
QUARTER ENDING 30th JUNE 1908.

By A. WATT, M.A., F.R.S.E., under the Direction of the Council of the Scottish
Meteorological Society.

THE Report is based on observations made, morning and evening, at Stations of the Scottish Meteorological Society, and at some additional stations whose returns are included by the courtesy of the Meteorological Office. The total number of contributing stations is 66. For list of Observers, see page 68.

SUMMARY OF OBSERVATIONS.

In Table I., the means for the various elements are the arithmetical means of the values at all the contributing stations. That for rainfall does not represent the whole country in a quite satisfactory manner, as stations are more numerous in dry districts than in wet districts: the figures, however, are fairly comparable with the corresponding figures given for former years.

Table II. refers to the eight principal towns only, and is extracted from the Monthly Reports already published by the Registrar General for Scotland.

TABLE I.—MEANS FOR ALL SCOTLAND.

1908.	BARO- METER at 32° F. and Sea- level.	SELF-REGISTERING THERMOMETERS.					RAIN.	
		Mean Max.	Mean Min.	Mean Temp.	Ab- solute Max.	Ab- solute Min.	Days.	Amount.
April	ins. 29·986	47·9	34·5	41·2	68	9	15	ins. 1·79
May	29·899	58·0	43·4	50·7	81	30	18	2·39
June	30·033	62·7	47·0	54·9	87	33	14	2·21

TABLE II.—MEANS FOR THE EIGHT PRINCIPAL TOWNS.

1908.	SELF-REGISTERING THERMOMETERS.					RAIN.		WIND—NO. OF OBSERVATIONS.								
	Mean Max.	Mean Min.	Mean Temp.	Ab- solute Max.	Ab- solute Min.	Days.	Amount.	N	NE	E	SE	S	SW	W	NW	Calm or Var.
April	48·6	35·5	42·1	67	9	13	ins. 1·48	8	11	9	8	2	4	6	7	5
May	59·3	44·7	52·0	81	35	19	2·23	1	5	11	8	6	12	15	2	2
June	63·8	48·4	56·1	85	37	13	1·91	4	6	7	7	4	12	11	8	1

And when the figures in Table I. and those of wind-direction in Table II. are compared with the averages for 1856–1905, during the same months, they show the following characteristics and differences:—

APRIL 1908—

Mean Barometric Pressure, 29·986 inches; greater than the average by 0·103 inch.

Mean Temperature, 41°·2; less by 2°·9.

Mean Daily Range of Temperature, 13°·4; less by 1°·1.

Rain, Number of Days, 15; being the average.

Rain, Depth in Inches, 1·79; less by 0·48 inch.

Wind, Direction of: a 5 days' excess of winds from between N.W. and N.E.

MAY 1908—

Mean Barometric Pressure, 29·899 inches; less than the average by 0·045 inch.

Mean Temperature, 50°·7; greater by 1°·7.

Mean Daily Range of Temperature, 14°·6; less by 0°·9.

Rain, Number of Days, 18; greater by 5 days.

Rain, Depth in Inches, 2·39; greater by 0·10 inch.

Wind, Direction of: a 4 days' excess of winds from between S. and W.

JUNE 1908—

Mean Barometric Pressure, 30·033 inches; greater than the average by 0·087 inch.

Mean Temperature, 54°·9; being the average.

Mean Daily Range of Temperature, 15°·7; less by 0°·1.

Rain, Number of Days, 14; greater by 1 day.

Rain, Depth in Inches, 2·21; less by 0·31 inch.

Wind, Direction of: a 3 days' excess of winds from between N.E. and N.W.

APRIL 1908—

Hence the month of APRIL 1908 was characterised by a high mean pressure; an extremely low mean temperature, with a low mean daily range; a low mean rainfall; a large excess of winds from between North West and North East.

The mean pressure was 29·986 ins., or 0·103 in. above the normal. No very deep depression occurred, and conditions were almost continuously influenced by high pressure areas, lying, at first, over Western Europe, and, later, over the Iceland area. At Leith pressure was above 30 ins. from 5th to 9th, from 12th to 18th, and on 29th and 30th, the extremes there being 30·609 ins. on 16th and 29·417 ins. on 25th.

The mean temperature was 41°·2, or 2°·9 below the normal, the days being 3°·4 and the nights 2°·3 below their respective averages. The month was remarkable for abnormally cold weather experienced during the fourth week, and especially between 23rd and 25th. The mean temperature of the week ending on 25th was from 8° to 10° below the normal, and shade minima of 9° at Perth on 24th and at Corstorphine on 25th are the absolutely lowest readings recorded in Scotland in any April for at least 50 years. Very low day temperatures occurred about this time, and frequently throughout the month, the maximum at Edinburgh (Blackford Hill) on 24th being as low as 32°·3. The actual highest readings noted were 68° at Balruddery, Crieff and Buchlyvie on 17th, that being almost the only moderately warm day of the month.

The mean rainfall was 1·79 in., or 21 per cent. below the normal. There was a slight excess in the extreme North, in parts of Banffshire and Aberdeenshire, and near Edinburgh, but over the country generally there was a deficiency, amounting in Perthshire to about 50 per cent. Strathpeffer, Inverness, Dundee and Crieff had aggregates of less than 1 in. The heaviest general falls occurred early in the month; on 8th; in the Edinburgh area on 23rd or 24th, when the precipitation consisted largely of snow; or on 30th. The largest daily falls reported were 1·06 in. at Fort William on 2nd and 1·87 in. at Glencarron on 3rd. From 11th to 23rd practically no precipitation occurred in some inland and Western districts.

On the evening of 23rd a snowstorm of extraordinary severity for the advanced time of year set in over a great part of the country. Whilst some central and western districts reported no snow, or merely frequent showers, there was around Edinburgh a fall of several inches. In the South of England the storm was much more severe, and over our Islands generally for some days, with winds from the North, conditions were of a very wintry character, for which there seems no parallel in official weather records for the month of April.

Thunder at Baltasound on 3rd, and at Duns on 4th.

Sunshine variable in amount, but deficient towards the South East, normal at Aberdeen and Stornoway, and in excess at Deerness.

Coast fog in the East on 8th, 9th and 30th; in the West on 8th.

Auroras observed at Baltasound on 3rd, 4th, 8th, 25th, and 29th.

MAY 1908—

Hence the month of MAY 1908 was characterised by a slightly low mean pressure; a high mean temperature, with a somewhat low mean daily range; a mean rainfall practically equal to the average: an excess of winds from a South-Westerly quarter.

The mean pressure was 29·899 ins., or 0·045 in. below the normal. Pressure was high for the first two or three days, then low until 15th, and thereafter almost continuously high. At Leith the sea-level extremes were 30·539 ins. on 28th, and 29·217 ins. on 5th, the barometer there being above 30 ins. from 1st to 3rd, 16th to 20th, and 26th to 30th.

The mean temperature was 50°·7, or 1°·7 above the normal, the days being 1°·3 and the nights 2°·2 above their respective averages. The month was on the whole the mildest May since 1901, and in great contrast to the Mays of 1906 and 1907, low night readings being very infrequent. There were some considerable variations of temperature, but a well-marked temperature excess prevailed towards the end of the month, all stations recording their maxima between 27th and 31st, the majority on 28th, when Kingussie, Perth, Buchlyvie and Paisley reached 81°. The coldest nights were, as a rule, those of 21st and 22nd, Balmoral and Kingussie reporting 30° in shade on night of 21st. It may be noted that on the East coast the maxima on 29th were much lower than those of the preceding day. Thus at Leith the shade thermometer reached 76° on 28th, but only 56° on 29th.

The mean rainfall was 2·39 ins., or 4 per cent. above the normal. In Southern districts and in the extreme North there was an excess, amounting at Dumfries, Wick and Deerness to about 50 per cent., whilst towards the North-East a moderate deficiency prevailed, amounting at Inverness to 47 per cent. Rain fell on 24 days at Glencarron and Poltalloch, and in some districts was rather frequent, considering the comparatively

small aggregates. Lochbuie reported more than 1 in. on 16th, but large daily amounts were rare. The heaviest general fall occurred on 8th (0·97 in. at Fort William); but in the Lothians on 30th. Generally speaking, rain fell almost daily from 1st to 12th, and frequently from 16th to 25th, whilst the last six days were rainless or all but so, except in East and South, where considerable falls took place on 30th.

Gales did not occur.

On the night of 30th a rather severe thunderstorm occurred in East, South, and some Western districts, whilst earlier in the month thunder was noted on varying dates, e.g., at Buchlyvie on 6th, 13th, 21st and 24th, and at Wolfelee on 13th, 15th, and 22nd.

Hail occurred at Baltasound on 1st and at various places between 21st and 24th.

Sunshine was deficient at Deerness, but in general rather above the normal.

Coast fog was rather frequent early in the month, and in East and North during the closing days.

JUNE 1908—

Hence the month of JUNE 1908 was characterised by a high mean pressure; an average mean temperature, with an average mean daily range; a slightly low mean rainfall; a slight excess of winds from between N.E. and N.W.

The mean pressure was 30·033 ins., or 0·087 in. above the normal. The barometer was rather high early in the month and continuously high during the last ten days, whilst for several days around the middle of the month pressure was low and irregular. On 13th a rather deep depression spread in from the Atlantic, with heavy rains from S.W. and S. At Leith the sea-level extremes were 30·445 ins. on 27th and 29·328 ins. on 13th.

The mean temperature was 54·9, being the normal. The differences for the individual stations ranged from an excess of 1°·9 at Perth to a defect of 1°·4 at Fort Augustus, but many stations practically agreed with their normals. Early in the month temperature was on the whole above the average; whilst the second week was cold, and the third decidedly cold for the time of year, some very low day readings occurring. The last few days were marked by bright warm weather. The warmest days were, as a rule, from 25th to 28th, Poltalloch reaching 87° in shade on 28th; Perth and Buchlyvie 85° on 27th; and a good many stations 80° or over on some one day. Lowest temperatures occurred on varying dates between 5th and 21st, Kingussie reporting 33° in shade on 5th, and Balmoral a similar reading on 12th and 15th.

The mean rainfall was 2·21 ins., or 12 per cent. below the normal. There was a decided shortage over the Eastern half of the country, Edinburgh having only half its normal amount; whilst towards West and South there was in general an excess. Falls of 1 in. or over occurred at Glencarron and Lochbuie on 10th; and at Marchmont, Leadhills, Drumlanrig and Cargen on 13th, a fall of 1·05 in. at Marchmont on the latter date being more than half the aggregate for the month. It is noteworthy that some Eastern stations entirely escaped heavy falls, Dundee, Arbroath and Gordon Castle not registering as much as a quarter of an inch on any one day. The last 8 days of the month were rainless, or practically so, in nearly all districts, whilst the wettest period was from 10th to 15th.

Thunderstorms occurred at Kelso on 1st, and in South and West on 2nd, whilst thunder was heard here and there later in the month.

Hail at Logie Coldstone on 12th and 14th, and at West Linton on 19th.

Coast fog in East and North from 1st to 3rd and from 25th to 29th; less generally in West and South.

The distribution of sunshine varied, Stornoway having a decided deficiency and Edinburgh as decided an excess. The closing days of the month were extremely sunny.

Note.—The averages for Temperature and Rainfall referred to in the returns for individual stations are for the 40 years 1866–1905, but at the 6 stations whose returns are supplied by the Meteorological Office the averages are for the 35 years 1870–1905. For stations where the actual observations do not cover the entire period of 35 or 40 years, the averages have been adjusted by comparison with neighbouring stations. The Sunshine averages are, as a rule, for the 25 years 1880–1905, but at Edinburgh (Blackford Hill) for the 8 years 1901–1908.

The amount of cloud is estimated on a scale of 0–10, and a day is reckoned as a day of “clear sky” if the average of the estimates at the hours of observation is less than 2, and as an “overcast” day if the average is greater than 8.

REGISTRARS' NOTES.

IN compliance with the following Instructions, many of the Registrars have appended remarks to their Returns, from which the subjoined Notes have been selected. The Registrars alone must be considered responsible for the opinions which they express.

INSTRUCTIONS TO REGISTRARS.

"If, at any time, the Births (whether legitimate or illegitimate), the Deaths, or the Marriages registered during the Quarter have been above or below the average, here state what you consider to be the cause, and whether epidemics, such as Measles, Typhus, Cholera, etc., have prevailed in the District; or if there is any other fact in the character of the Weather, Sanitary or Social Arrangements, Movement of the Population, etc., which will account for the circumstance."

The Figures refer to the Numbers of the Districts in the preceding Tables.

I. NORTHERN DIVISION.

2. Orkney.

29. SOUTH RONALDSHAY AND BURRAY.—Of the twelve deaths registered in April, four were caused by accidental drowning.

31. STRONSAY.—There have been no epidemics in the parish during the quarter.

3. Caithness.

40. REAY.—There has been an epidemic of whooping-cough, from which three children have died.

II. NORTH-WESTERN DIVISION.

5. Ross and Cromarty.

Mainland.

58. APPLECROSS.—Of the two deaths registered, one was that of a female aged 80 years, the other that of an infant 20 days old. No marriages have been registered during the past 18 months.

59a. AVOCH.—Compared with the numbers for the corresponding quarter of last year (which were unusually low), the number of births is almost trebled, and the number of deaths doubled.

60 (1). CONTIN.—One of the deaths which occurred in May was that of a woman aged 94 years. Whooping-cough has been prevalent, and has caused the death of a child aged under 2 years.

6. Inverness.

Mainland.

95. DAVIOT AND DUNLIGHTY.—The three deaths registered were those of young persons, one being aged 18 years, and the two others being infants. Almost all marriages of persons belonging to this parish are celebrated elsewhere.

104. LAGGAN.—One of the deaths registered occurred on the railway during a snowstorm, and three of the others were of persons whose ages averaged 80 years.

Insular.

111 (1). NORTH HARRIS.—Of the eleven deaths registered, four were of persons aged from 80 to 95 years respectively.

117 (2). SOUTH SNIZORT.—Measles and whooping-cough prevalent, but no deaths therefrom.

118 (1). BENBECULA.—Deaths greatly below the average number. No epidemics have prevailed.

III. NORTH-EASTERN DIVISION.

8. Elgin.

129. DALLAS.—Of the five deaths, four were of persons aged from 80 to 90 years respectively.

131 (1). BURGHEAD.—Whooping-cough prevalent, three deaths resulting therefrom.

9. Banff.

148. BOTRIPHNE.—Only one death has been recorded this year, an unparalleled incident in this parish.

153 (2). PORTSOY.—Measles and whooping-cough prevalent.

157 (2). GLENLIVET.—Death-rate for quarter very high among children under eight years of age, whooping-cough and broncho-pneumonia being the chief causes. Of the twelve deaths, five were of children under that age.

167. SEAFIELD.—The two females whose deaths were registered were aged 84 and 97 years respectively.

10. Aberdeen.

172. AUCHINDOIR AND KEARN.—Of the four deaths registered, two were of persons aged 74 and 81 years respectively.

178. CAIRNEY.—Whooping-cough was prevalent in one corner of the parish for some time, and two deaths, of children 1 and 3 years old respectively, were due to this cause.

183 (1). BRAEMAR.—Number of deaths greatly below the average, the one death recorded being that of a female aged 84 years.

201. GLENMUCK, TULLICH, and GLENGAIRN.—Measles has been prevalent, the death of a boy of 6 years resulting therefrom.

205. KEIG.—Whooping-cough has been very prevalent; two of the deaths were those of infants who died from this cause.

217. LOGIE COLDSTONE and CROMAR.—The three persons whose deaths were registered were aged 5, 81, and 83 years respectively.

225. NEW DEER.—The large decrease in the birth-rate is largely due to emigration, many families having left the district. Fifty per cent. of the deaths were of persons belonging to other parishes who died in the Combination Poorhouse.

237c. ST. FERDUS.—Of the six deaths of males registered, two were accidental and one suicidal. The female was 84 years of age.

239. SLAINS.—Of the three persons whose deaths were registered, one, a female, died suddenly, another was killed by falling down a cliff, and another was drowned off a passing steamer.

240. STRATHDON.—Of the eight persons whose deaths were registered, four were aged over 80, three over 70, and one was 60 years of age. The average age was 78 years.

IV. EAST-MIDLAND DIVISION.

12. Forfar.

306. LUNDIE.—Number of deaths above the average. Scarlatina prevalent in the parish recently.

13. Perth.

326. ABERNETHY.—For the first time on record, only one death was registered during the quarter.

330. AUCHTERGAVEN.—Number of births nearly twice the average.

331. BALQUHIDDER.—The illegitimate child was registered as the son of a vagrant tinker.

345. DRON.—Of the three deaths, two were of children who died from the after-effects of measles, while the third was suicidal.

376. LOGIERAIT.—Three of the deaths were of persons aged 68, 69, and 72 years respectively, who died in the Combination Poorhouse.

377. LONGFORGAN.—Of the five persons whose deaths were registered, four were children, and the fifth was aged 91 years.

380. METHVEN.—The death-rate is abnormally high, being at the annual rate of 40 per 1000. Seven of the deaths were of persons whose ages averaged 78·6 years.

14. Fife.

432. INVERKEITHING.—One of the deaths registered in June was that of a female aged 92 years.

434. KENNOWAY.—Of the thirteen deaths, five were of persons aged from 78 to 89 years respectively, and three were of children only a few days old. Dull trade is probably the main cause of the absence of any marriages.

455. SALINE.—Of the nine deaths registered, four were of females aged from 75 to 99 years respectively, and three were of children under 2 years of age.

15. Kinross.

460. CLEISH.—Neither a marriage nor a death has been registered during the past six months. The latter fact probably creates a record.

16. Clackmannan.

467. DOLLAR.—Two of the deaths registered were of females aged 80 and 84 years respectively. Whooping-cough has been prevalent in the district.

V. WEST-MIDLAND DIVISION.

17. Stirling.

473. BONNYBRIDGE.—Measles prevalent during April and May. Eleven deaths resulted therefrom.

18. Dumbarton.

497. KILMARONOCK.—Four of the deaths were of young men, strangers, who were drowned together in Loch Lomond on May 24.

19. Argyll.

Mainland.

520. KILMALLIE.—The number of births registered in June is abnormal.

526. LOCHGILPHEAD.—The death of the oldest resident, aged 96 years, was registered during the quarter. In connection with another death, two young men are at present in custody on the capital charge.

Insular.

537. GIGHA AND CARA.—The deaths have all been of elderly people, whose ages ranged from 56 to 84 years, giving an average of 69·8 years.

551 (2). COLL.—The average age of the three persons who died during this past quarter was 78½ years, the oldest, a female, being aged 97 years.

VI. SOUTH-WESTERN DIVISION.

21. Renfrew.

569. KILMACOLM.—The large number of births is accounted for by the fact that over one hundred families have moved into the district during the quarter.

22. Ayr.

576 (1). OLD ARDROSSAN.—The birth of triplets was registered during the quarter.

577 (1). AUCHINLECK.—All the ten deaths registered were of females.

578 (3). ALLOWAY.—Of the twenty-five deaths registered, twenty-one were of inmates of Ayr District Asylum.

579. BALLANTRAE.—The number of deaths is remarkably low.

582 (1). COLMONELL.—One of the deaths registered was that of a child who was drowned in the river Stinchar, another being that of an unknown man, who died from exposure, or natural causes accelerated by exposure.

595. IRVINE.—High death-rate in April caused by measles and pneumonia in children under 4 years of age.

615. STEVENSTON.—The birth and marriage rates are slightly below last year's figures, probably owing to emigration from the district.

23. Lanark.

624. BLANTYRE.—The exceptional death-rate in April was due to an epidemic of measles, followed in many cases by broncho-pneumonia. The epidemic has now abated.

VII. SOUTH-EASTERN DIVISION.**25. Edinburgh.**

677. COLINTON.—Of the eighty-three deaths registered, sixty-eight took place in Craighlockhart Poorhouse, and the two illegitimate births also took place there.

682. CURRIE.—Of the fourteen persons whose deaths were registered, seven were aged 69 years and upwards.

698*a*. RATHO.—Of the six deaths, three were of persons aged 71 years and upwards. The number of marriages is by far the highest in an experience extending to forty-six years.

27. Berwick.

737. ECCLES.—The two deaths registered were those of children each 13 months old.

747. LANGTON.—No deaths have been registered for over a year.

VIII. SOUTHERN DIVISION.**30. Roxburgh.**

795. LILLIESLEAF.—The two deaths registered were those of persons 94 and 63 years of age respectively.

799 (1). MELROSE.—Of the twenty-three deaths, nine occurred in the District Asylum.

32. Kirkcudbright.

860. CARSPHAIRN.—The cause of the one death was puerperal fever.

33. Wigtown.

895. PENNINGHAME.—A noticeable feature of this return is the great preponderance of deaths of females, fourteen out of sixteen.

INDEX TO THE DISTRICTS.

*The Figures refer to the Numbers of the Districts in the preceding Tables of Births, Deaths, and Marriages, these being numbered consecutively from 1 to 901.**

* The actual number of Districts is 1078—many Parishes and Burghs having been divided into two or more Districts for the purpose of Registration. Thus Edinburgh and Glasgow, to each of which only a single number is assigned in the Tables, consist of 7 and 18 Districts respectively. In forming the alphabetical arrangement the principle adopted has been to place compound names in the order in which they are pronounced.

1908.

REPORT.

During the quarter ending 30th September 1908 there were registered in Scotland the births of 32,612 living children, the deaths of 16,325 persons, and 8044 marriages. These births are 2999 fewer than those registered in the previous quarter, but 1185 more than those registered in the corresponding quarter of last year. These deaths are 3174 fewer than those registered in the previous quarter, but 604 more than those registered in the corresponding quarter of last year. These marriages are 769 fewer than those registered in the previous quarter, and 950 fewer than those registered in the corresponding quarter of last year. Compared with the average number of births, deaths, and marriages registered in the third quarter of the previous ten years, those averages being adjusted to allow for estimated increase of population, the births for this quarter are 2123 fewer, the deaths 1821 fewer, and the marriages 705 fewer.

TABLE I.—BIRTHS, DEATHS, and MARRIAGES in SCOTLAND, its Groups of Districts, and Divisions during the Quarter ending 30th September 1908, with their Proportion to the Population; also the Illegitimate Births, and their Proportion to the Total Births.

BIRTHS.

The total number of births registered during the quarter was 32,612, for which the equivalent annual birth-rate is 26·8 per thousand of the estimated population, a rate which is 2·8 below that for the previous quarter, but is 0·7 above that for the third quarter of the previous year. It is 1·8 less than the mean of the birth-rates for the previous ten years.

In the groups of registration districts the birth-rate for the quarter ranged from 30·1 in the Large Town districts, to 20·0 in the Insular-Rural districts. In the Small Town districts it was 29·2, in the Principal Town districts 26·2,

and in the Mainland-Rural districts 24·4. In each of these groups of registration districts, the Insular-Rural excepted, the birth-rate was lower in this than in the previous quarter.

In the divisions of the counties the birth-rate ranged from 29·4 in the South-Western, to 19·1 in the Northern. In the West-Midland it was 27·2; in the East-Midland, 25·3; in the South-Eastern, 25·3; in the North-Eastern, 24·6; in the Southern, 22·8; and in the North-Western, 22·4.

In the eight principal towns the birth-rate for the quarter ranged from 30·9 in Greenock to 20·5 in Perth. In Leith, it was 28·5; in Glasgow, 27·1; in Dundee, 25·6; in Aberdeen, 23·5; in Paisley, 23·2; and in Edinburgh, 21·7. In all these towns the birth-rate for this quarter was less than that for the previous quarter.

Kincardine	9·0	Ayr	5·6	Wigtown	14·8

Of the 32,612 births registered during the quarter, 2266, or 6·9 per cent., were illegitimate. These illegitimate births are 1 fewer than in the previous quarter, but 291 more than in the corresponding quarter of last year. The illegitimate rate is 0·5 more than that for the previous quarter, and 0·6 more than that for the corresponding quarter of last year. In the groups of registration districts the illegitimate rate for the quarter ranged from 9·1 in the Mainland-Rural to 5·0 in the Insular-Rural. In the Principal Town districts it was 7·0; in the Small Town districts, 6·2; and in the Large Town districts, 5·4. In each of these groups of registration districts the illegitimate rate was higher in this than in the previous quarter. In the divisions of the counties the illegitimate rate ranged from 12·5 in the Southern to 4·6 in the West-Midland. In the North-Eastern it was 11·9; in the North-Western, 7·7; in the South-Eastern, 7·0; in the Northern, 6·9; in the East-Midland, 6·7; and in the South-Western, 6·0. In the counties the illegitimate rate ranged from 14·8 in Wigtown, 13·8 in Banff and in Dumfries, 12·5 in Elgin, 11·9 in Aberdeen, 11·8 in Kirkcudbright, and 11·4 in Kinross, to 3·8 in Linlithgow, 3·9 in Stirling, 4·0 in Dumbarton, 4·3 in Peebles, 4·6 in Sutherland, 4·8 in Fife, and 4·9 in Nairn. In seven

counties this rate was over 10 per cent.; in nineteen counties it was between 5 and 10 per cent.; in seven counties it was under 5 per cent.

Of the 32,612 children whose births were registered during the quarter, 16,584 were male, and 16,028 female. The ratio of male to female children was 103·5 to 100.

																					7·1	

The average number of births registered daily in July was 373, in August 344, and in September 347.

The birth-rate for the quarter in England and Wales was 26·6, which is 0·2 less than the Scottish quarterly birth-rate.

DEATHS.

The number of deaths registered during the quarter was 16,325, and for that number the equivalent annual death-rate is 13·4 per thousand of the estimated population. This death-rate is 2·8 less than that for the previous quarter, but is 0·3 more than that for the third quarter of last year. It is 1·5 less than the mean of the death-rates for the third quarter of the previous ten years, and is less than any Scottish quarterly death-rate with the exception of that for the third quarter of last year.

In the groups of registration districts the death-rate for the quarter ranged from 13·7 in the Small Town districts to 13·1 in the Mainland-Rural districts. In the Large Town districts it was 13·6, in the Insular-Rural districts 13·5, and in the Principal Town districts 13·4. Compared with the death-rates of these groups of districts for the second quarter, each of these death-rates is less. Compared with those for the third quarter of last year, those of the Large Town and Insular-Rural districts are less, but those of the Principal Town, Small Town, and Mainland-Rural districts are more.

In the Report regarding the births, deaths, and marriages for the second quarter of this year, attention was drawn to the fact that for the first time the death-rate of the Principal Town districts was less than those of the other groups of registration districts. A relatively as well as actually low death-rate in the Principal Town districts is again found in this quarter, for the death-rate of that group is less than those of the two other urban groups, and less than that of the Insular-Rural districts.

In the divisions of the counties the death-rate for the quarter ranged from 14·3 in the Northern to 11·7 in the North-Eastern. In the South-Western it was 13·9; in the North-Western, 13·6; in the East-Midland, 13·4; in the West-Midland, 13·4; in the South-Eastern, 13·3; and in the Southern, 12·6.

The death-rate for the quarter in the eight Principal Towns ranged from 16·2 in Dundee to 10·9 in Aberdeen. In Greenock it was 14·7; in Glasgow, 14·6; in Edinburgh, 13·1; in Paisley, 12·7; in Perth, 12·4; and in Leith, 12·1. In Glasgow, Dundee, Leith, and Greenock the death-rate was more in this than in the third quarter of last year, but in the four other Principal Towns it was less.

Of the 16,325 deaths registered during the quarter, 8243 were of males, and 8082 of females.

The average number of deaths registered daily in July was 172, in August 182, and in September 179.

The death-rate for the quarter in England and Wales was 12·8, a rate which is 0·6 less than the Scottish quarterly death-rate.

MARRIAGES.

The number of marriages registered during the quarter was 8044, and the equivalent annual marriage-rate amounts to 6·6 per thousand of the estimated population, a rate which is 0·7 less than that for the second quarter, 0·9 less

than that for the third quarter of last year, and is 0·6 less than the mean of the marriage-rates for the third quarter of the previous ten years.

In the groups of registration districts the marriage-rate ranged from 8·1 in the Principal Towns to 1·6 in the Insular-Rural districts. In the Large Town districts it was 7·2; in the Small Town districts, 6·1; and in the Mainland-Rural districts, 3·7. In the divisions of the counties the marriage-rate ranged from 7·9 in the South-Eastern to 3·1 in the Northern and North-Western. In the South-Western it was 7·2; in the East-Midland, 6·5; in the North-Eastern, 6·0; in the West-Midland, 5·3; and in the Southern, 5·2. In the eight Principal Towns the marriage-rate for the quarter ranged from 9·9 in Edinburgh to 6·2 in Leith. In Perth it was 9·2; in Glasgow, 8·6; in Paisley, 8·2; in Dundee, 8·1; in Aberdeen, 8·0; and in Greenock, 7·5.

The average number of marriages registered daily in July was 121, in August 65, and in September 75.

TABLE IV.—Births, Deaths, and Marriages, and their Proportion to the Population, in Eight of the Principal Towns of Scotland, during the Quarter ending 30th September 1908.

CAUSES OF DEATH IN EIGHT OF THE PRINCIPAL TOWNS.

As 38 per cent. of the population of Scotland live in eight of the principal towns, namely, Glasgow, Edinburgh, Dundee, Aberdeen, Paisley, Leith, Greenock, and Perth, it may be assumed that the causes of death found to be prevalent in them during the quarter are a fairly good indication of the causes of death prevalent generally in Scotland during the quarter. Details of the causes of death in the remainder of Scotland are not yet available.

The estimated population of these eight towns is 1,839,038. Deaths registered in them during the quarter numbered 6413, for which the equivalent annual death-rate is 13·8 per thousand, a rate which is 2·3 less than that for the previous quarter, but 0·1 more than that for the third quarter of last year. The death-rate of these eight towns in July was 13·4, in August 14·2, and in September 13·9.

Deaths from acutely infectious diseases in these eight towns during the quarter numbered 417; of them 140 were registered in July, 151 in August, and 126 in September. The death-rate from these causes for the quarter was 0·90 per thousand; for July 0·90, for August 0·97, and for September

0·83. This quarterly death-rate is 0·46 less than the corresponding death-rate for the previous quarter, and 0·37 less than that for the third quarter of last year. These deaths include 39 from measles; 23 from scarlet fever; 221 from hooping-cough; 53 from diphtheria; 2 from typhus fever; 28 from enteric fever; and 51 from cerebro-spinal meningitis. There were no deaths from small-pox. Compared with the returns for the previous quarter, deaths from measles are 226 fewer; from cerebro-spinal meningitis, 3 fewer; and from scarlet fever, 21 fewer; but those from diphtheria are 2 more; from typhus fever, 2 more; from enteric fever, 16 more; and from hooping-cough, 27 more than in that quarter. The equivalent annual death-rate per 100,000 from hooping-cough was 48; from diphtheria 11; from cerebro-spinal meningitis 11; from measles 8; from enteric fever 6; and from scarlet fever 5.

Deaths from diarrhœas, including those certified as due to enteritis and gastro-enteritis, numbered 552. They are 377 more than were registered in the previous quarter, and 299 more than were registered in the third quarter of last year. The equivalent annual death-rate from these causes is 119 per 100,000, a death-rate which is 81 higher than that for the previous quarter, and 64 higher than that for the third quarter of last year. This death-rate in July was 78, in August 156, and in September 123.

Deaths during the quarter from tuberculous disease numbered 814; they are 274 fewer than those registered in the previous quarter, and 68 fewer than those registered in the third quarter of last year. The equivalent annual death-rate per 100,000 was 176, a rate which is 61 less than that for the previous quarter, and 17 less than that for the third quarter of last year. This death-rate in July was 186, in August 184, and in September 156.

Deaths from malignant disease numbered 483; they are 62 more than those registered in the previous quarter, and 34 more than those registered in the third quarter of last year. The equivalent annual death-rate from this cause was 104 per 100,000, a rate which is 12 more than that for the previous quarter, and 6 more than that for the third quarter of last year. Of these deaths 257 were ascribed to carcinoma, 29 to sarcoma, and 197 to other or unspecified forms of cancer.

Deaths from pneumonia numbered 421; they are 300 fewer than were registered in the previous quarter, and 87 fewer than were registered in the third quarter of last year. The equivalent annual death-rate was 91 per 100,000; a rate which is 66 less than that for the previous quarter, and 20 less than that for the third quarter of last year. Of these deaths 151 were registered in July, 127 in August, and 143 in September.

Deaths from bronchitis numbered 283; they are 198 fewer than were registered in the previous quarter, and 9 fewer than were registered in the third quarter of last year. The equivalent annual death-rate was 61 per 100,000, a rate which is 44 less than that for the previous quarter, and 3 less than that for the corresponding quarter of last year. Of these deaths 88 were registered in July, 97 in August, and 98 in September.

Deaths from diseases and accidents of pregnancy and child-birth, including puerperal septic conditions, numbered 57; they are 7 fewer than in the previous quarter, but 6 more than in the third quarter of last year.

Deaths of children of less than one year old numbered 1478. Births in these

towns during the quarter numbered 11,803, and thus the infantile mortality rate per 1000 births was 125, a rate which is 15 higher than that for the previous quarter, and 19 higher than that for the third quarter of last year. The infantile mortality rate for the quarter ranged from 142 in Dundee to 88 in Perth. In Glasgow it was 138; in Aberdeen, 114; in Edinburgh, 110; in Paisley, 104; in Leith, 100; and in Greenock, 91.

Of the total deaths registered in these towns during the quarter, 2261, or 35·3 per cent., were of children of less than five years old; and 1573, or 24·5 per cent., were of persons of over sixty. The former are 240 fewer than in the previous quarter, but 225 more than in the third quarter of last year. The latter are 369 fewer than in the previous quarter, and 19 fewer than in the corresponding quarter of last year.

Deaths from violence numbered 313; they are 31 more than in the previous quarter, and 26 more than in the third quarter of last year. Of them 3 were attributed to homicide, 31 to suicide, 1 to judicial execution, and 278 to accident.

WEATHER.

The Meteorological Returns which appear in the Registrar-General's Monthly Reports, and which refer more particularly to observations made in the eight Principal Towns enumerated above, show that *July* was characterised by a rather high mean pressure; a slightly high mean temperature, with a slightly high mean daily range; a fractionally low mean rainfall; an excess of winds from an Easterly quarter. *August* was characterised by a slightly high mean pressure; a fractionally low mean temperature, with a high mean daily range; a rather low mean rainfall; a slight excess of winds from West and North-West. *September* was characterised by a slightly low mean pressure; a slightly high mean temperature, with a small mean daily range; a high mean rainfall, with a large number of days with rain; a defect of Westerly winds.

Observations made *throughout Scotland* show that the mean height of the barometric column, reduced to sea-level and 32° Fahr., was 29·945 inches in July, 29·900 inches in August, and 29·840 inches in September. The mean temperature for the quarter was 55°·2, or 0°·5 below the average mean temperature for the corresponding quarter of the last ten years. The mean temperature in July was 57°·0, in August 55°·7, and in September 53°·0. The absolutely highest temperature recorded in July was 91°, in August 82°, and in September 74°. The absolutely lowest temperature recorded in July was 32°, in August 30°, and in September 27°. The mean number of days on which rain fell was 13 in July, 15 in August, and 22 in September; the mean amount collected was 2·87 inches in July, 3·10 inches in August, and 4·90 inches in September.

[illegible]

N.B.—Districts containing Parliamentary or Royal Burghs are printed in capitals, thus—EDINBURGH. Districts containing Police Burghs or Towns of 2000 Inhabitants and upwards are printed in small capitals; thus—CARLUKE. An asterisk "*" is prefixed to those Districts which have different names from the Parishes in which they are situated, or which comprise more, or parts of more than one Parish. The component parts of these Districts will be found on page 45. A dagger "+" is prefixed to those Districts which consist of only a part of the Civil Parish of the same name.

CONSTITUTION OF THE DISTRICTS DISTINGUISHED IN THE PRECEDING
TABLES BY AN ASTERISK (*).

No.	Districts.	Component Parts (Parishes).
2. Orkney.		
13	Birsay	Part of Harray and Birsay.
14	Deerness	Part of St Andrews and Deerness.
18	Harray	Part of Harray and Birsay.
22	North Ronaldshay	Part of Cross and Burness.
25	St Andrews	Part of St Andrews and Deerness.
26	Sanday	Lady, and part of Cross and Burness.
3. Caithness.		
37b	Keiss	Parts of Canisbay and Wick.
5. Ross and Cromarty.		
58	Applecross	(1) Part of Applecross; (2) Remainder of Applecross and part of Gairloch.
59b	Carnoch	Parts of Contin and Urray.
86b	Carloway	Parts of Barvas and Uig.
87	Lochs	Lochs and part of Uig.
6. Inverness.		
92b	Cannich	Parts of Kilmorack and Kiltarlity.
112	Kilmuir	(1) Part of Kilmuir; (2) Remainder of Kilmuir, and part of Snizort.
8. Elgin.		
135	Elgin	Elgin, and parts of New Spynie and St Andrews-Lhanbryde.
9. Banff.		
152	Enzie	Parts of Bellie and Rathven.
155b	Glenrhnnes	Parts of Aberlour and Mortlach.
167	Seafield	Parts of Cullen and Rathven.
10. Aberdeen.		
171b	Ardallie	Parts of Cruden, Ellon, Longside, and Old Deer.
210b	Kinninmonth	Parts of Crimond, Longside, Lomnay, Old Deer, and Strichen.
217	Logie Coldstone and Cromar	Logie Coldstone and part of Glenmuick.
222b	Milbrey	Parts of Fyvie and Monquhitter.
227b	New Pitsligo	Parts of Aberdour, New Deer, Strichen, and Tyrie.
231	Peterculter	(1) Parts of Aberdeen and Peterculter; (2) Remainder of Peterculter.
237b	Savoch	Parts of Ellon, New Deer, Old Deer, and Tarves.
249b	Ythan Wells	Parts of Auchterless and Fergie.
11. Kincardine.		
266	Nigg	Nigg, and part of Aberdeen.
12. Forfar.		
282	Dundee	Dundee Combination and part of Mains and Strathmartine.
294b	Kilry	Parts of Glenisla and Lintrathen.
13. Perth.		
324	Aberfeldy	Parts of Dull, Kenmore, and Logierait.
330	Auchtergaven	Parts of Auchtergaven and Logiealmond.
331	Balquhadder	Balquhadder, and part of Comrie.
344	Dowally	Part of Dunkeld and Dowally.
349	Dunkeld	Part of Dunkeld and Dowally.
355b	Foss	Parts of Blair-Athol and Dull.
361	Killin	Parts of Kenmore and Killin.
375	Logiealmond	Parts of Logiealmond, Little Dunkeld, and Methven.
379	Meigle	Meigle, and part of Coupar-Angus.
386b	Persie	Parts of Alyth, Blairgowrie, and Kirkmichael.
387	Perth	Perth, and part of Kinnoull.
393b	Stanley	Parts of Auchtergaven, Kinclaven, and Redgorton.
394b	Strathfillan	Part of Killin.
394c	Tenandry	Parts of Blair-Athol and Moulin.
14. Fife.		
402	Anstruther-Easter	Anstruther-Easter, and part of Kilrenny.
417	Crail	Part of Crail and May Island.
423	Dunbog	Dunbog, and part of Flisk.
425	Dunino	Dunino, and part of Crail.
442	Kirkcaldy and Abbotshall	Part of Kirkcaldy and Dysart.
457b	Thornton	Part of Kirkcaldy and Dysart and of Markinch.
17. Stirling.		
473	Bonnybridge	Parts of Denny, Dunipace, and Falkirk
488	St Ninians	Parts of St Ninians and Stirling.
490	Stirling	Parts of St Ninians and Stirling.

CONSTITUTION OF THE DISTRICTS—*continued.*

No.	Districts.	Component Parts (Parishes).
18. Dumbarton.		
496	Dumbarton	Dumbarton, and parts of Cardross and Old Kilpatrick.
19. Argyll.		
504	Ardochattan	Part of Ardochattan and Muckairn.
505	Ardnamurchan	(1) Parts of Ardnamurchan, and of Arisaig and Moidart.
506	Ballachulish, etc.	Parts of Kilmallie and Ardgour.
509	Cumloddan and Minard	Parts of Glassary and Inveraray.
515	Kilbrandon and Kilchattan	Kilbrandon and Kilchattan, and part of Jura.
517	Kilchrenan, etc.	(1) Parts of Kilchrenan and Dalavich, and Glenorchy and Inishail; (2) Remainder of Kilchrenan and Dalavich.
520	Kilmallie	Parts of Kilmallie and Ardgour.
525	Lismore	Lismore and Appin, and part of Ardgour.
526	Lochgilphead	Parts of Glassary and South Knapdale.
529	Muckairn	Parts of Ardochattan and Muckairn, and Glenorchy and Inishail.
535	Tarbert	Parts of Kilcalmonell, Saddell and Skipness, and South Knapdale.
536	Bowmore (or Kilarrow)	Part of Kilarrow and Kilmeny.
543	Kilmeny	Part of Kilarrow and Kilmeny.
545	Kinlochspelve	Part of Pennygown and Torosay.
547	Portmahaven	Part of Kilchoman.
548	Salen	Parts of Kilninian and Kilmore, and Pennygown and Torosay.
549	Tobermory	Part of Kilninian and Kilmore.
550	Torosay	Part of Pennygown and Torosay.
20. Bute.		
556	Lochranza	Parts of Kilbride and Kilmory.
21. Renfrew.		
559b	Bridge of Weir	Part of Houston and Killellan and of Kilbarchan.
572	Neilston	(1) Part of Neilston; (2) Remainder of Neilston and part of Paisley.
22. Ayr.		
576	Ardrossan	(1) Parts of Ardrossan and West Kilbride; (2) Remainder of Ardrossan.
578	Ayr (Alloway)	Parts of Ayr and Maybole.
584b	Crosshill	Parts of Kirkmichael, Kirkoswald, and Maybole.
595	Irvine	Irvine, and part of Dundonald.
603	Loudoun (Darvel)	Parts of Loudoun and Galston.
610b	Patna	Parts of Dalmellington, Dalrymple, Kirkmichael, and Straiton.
23. Lanark.		
622	Barony	Part of Glasgow.
626a	Cadder (Eastern district)	Parts of Cadder and Glasgow.
626b	Calderhead	Parts of Cambusnethan and Shotts.
644	Glasgow	Parts of Glasgow, Govan Combination, and Rutherglen.
25. Edinburgh.		
685	Edinburgh	Parts of Edinburgh and Colinton.
692	Leith	Leith and part of Edinburgh.
695b	New Cralghall	Parts of Inveresk and Liberton.
698b	Stobhill	Parts of Borthwick, Cockpen, and Newbattle.
29. Selkirk.		
774a	Caddonfoot	Caddonfoot, and part of Innerleithen.
30. Roxburgh.		
787b	Edgerston	Parts of Jedburgh and Southdean.
31. Dumfries.		
813b	Brydekirk	Parts of Annan, Cummertrees, and Hoddam.
830	Holywood	Holywood, and part of Terregles.
853b	Wanlockhead	Part of Sanquhar.
32. Kirkcudbright.		
857b	Bargrennan	Parts of Minnigaff and Penninghame.
862	Corscockbridge	Parts of Balmaclellan, Kirkpatrick-Durham, and Parton.
864	Dalbeattie	Part of Urr.
33. Wigtown.		
899	Stranraer	Stranraer, and parts of Inch and Leswalt.

METEOROLOGICAL REPORT

FOR THE MONTHS OF

JULY, AUGUST, SEPTEMBER,

1908.

DIAGRAM

SHOWING THE STATIONS
of the

SCOTTISH METEOROLOGICAL SOCIETY.

Reported to the Registrar General of Scotland.

REPORT ON THE WEATHER OVER SCOTLAND DURING THE QUARTER ENDING 30th SEPTEMBER 1908.

By A. WATT, M.A., F.R.S.E., under the Direction of the Council of the Scottish Meteorological Society.

THE Report is based on observations made, morning and evening, at Stations of the Scottish Meteorological Society, and at some additional stations whose returns are included by the courtesy of the Meteorological Office. The total number of contributing stations is 66. For list of Observers, see page 68.

SUMMARY OF OBSERVATIONS.

In Table I., the means for the various elements are the arithmetical means of the values at all the contributing stations. That for rainfall does not represent the whole country in a quite satisfactory manner, as stations are more numerous in dry districts than in wet districts: the figures, however, are fairly comparable with the corresponding figures given for former years.

Table II. refers to the eight principal towns only, and is extracted from the Monthly Reports already published by the Registrar General for Scotland.

TABLE I.—MEANS FOR ALL SCOTLAND.

And when the figures in Table I. and those of wind-direction in Table II. are compared with the averages for 1856–1905, during the same months, they show the following characteristics and differences:—

JULY 1908—

Mean Barometric Pressure, 29.945 inches; greater than the average by 0.053 inch.
Mean Temperature, 57°.0; less by 0°.3.
Mean Daily Range of Temperature, 14°.2; less by 0°.7.
Rain, Number of Days, 13; less by 2 days.
Rain, Depth in Inches, 2.87; less by 0.25 inch.
Wind, Direction of: a 4 days' excess of winds from between N.E. and S.E.

AUGUST 1908—

Mean Barometric Pressure, 29.900 inches; greater than the average by 0.044 inch.
Mean Temperature, 55°.7; less by 0°.9.
Mean Daily Range of Temperature, 15°.1; greater by 0°.6.
Rain, Number of Days, 15; less by 1 day.
Rain, Depth in Inches, 3.10; less by 0.58 inch.
Wind, Direction of: a 2 days' excess of winds from W. and N.W.

SEPTEMBER 1908—

Mean Barometric Pressure, 29.840 inches; less than the average by 0.026 inch.
Mean Temperature, 53°.0; greater by 0°.2.
Mean Daily Range of Temperature, 11°.6; less by 2°.4.
Rain, Number of Days, 22; greater by 6 days.
Rain, Depth in Inches, 4.90; greater by 1.38 inch.
Wind, Direction of: winds from W. on 4 days fewer than usual, with a corresponding excess from N.E. and S.

JULY 1908—

Hence the month of JULY 1908 was characterised by a rather high mean pressure ; a fractionally low mean temperature, with a slightly low mean daily range ; a slightly low mean rainfall ; an excess of winds from an Easterly quarter.

The mean pressure was 29·945 ins., or 0·053 in. above the normal. Pressure was high and steady during the first week and during the last twelve days, but irregular from about 9th to 18th, the deepest depression occurring on the night of 16th to 17th. At Leith the sea-level extremes were 30·428 ins. on 29th and 29·200 ins. on 17th.

The mean temperature was 57°·0, or 0°·3 below the normal, the nights being of average temperature and the days 0°·6 below. The bright warm weather which marked the last few days of June continued throughout the early days of July, high temperatures prevailing on 1st, 2nd, and 3rd. On each of these days the shade thermometer at Crieff and Cargen rose to 80° or above, whilst on 2nd, which was generally the warmest day of the month, we note readings of 88° at Perth, Buchlyvie, and Paisley, and of 91° at Dumfries, this last being apparently the highest temperature recorded during the month anywhere in the British Isles. On the night of 5th to 6th some low readings for midsummer were recorded, Balmoral falling to 32° in the screen and Crathes to 25° in the open. The second and third weeks were rather colder than the average, whilst towards the close of the month, with steadier pressure conditions, warmer weather again prevailed.

The mean rainfall was 2·87 ins., or 8 per cent. below the normal. Distribution was rather irregular. Except for a considerable local excess between the Dee and the Don, Northern districts had a rainfall decidedly below the average. Thus Glencarron and Nairn had only two-fifths of their normal amounts, and Strathpeffer, where the month's total was as small as 0·81 in., only one-fourth. Elsewhere we note an excess of as much as 30 per cent. at Poltalloch, Leith, Duns, Cargen, and Cally. The first week of the month was rainless in many districts, whilst from 8th to 17th conditions were very unsettled with some heavy daily falls. Tillypronie reported 1·48 in. on 11th ; Duns 1·77 in. on 12th and Leith 1·11 in. on the same day ; Gordon Castle 1·22 in. on 17th. From 18th onwards some districts were rainless except for falls on 24th and 25th, whilst in others rain fell rather frequently after 20th.

The high temperatures of 2nd and 3rd were associated with thunderstorms in many districts, and a heavy fall of hail in Perthshire. Thunder also occurred on various later dates, *e.g.*, on 12th at Leith, on 16th at Glasgow, on 21st at Tillypronie.

Coast fog was reported somewhat frequently.

On the nights of June 30th and July 1st, and more moderately on July 2nd, a remarkable sunset glow prevailed at midnight.

Very sunny days early in the month were succeeded by cloudy skies, and the aggregates of bright sunshine were deficient in all districts.

AUGUST 1908—

Hence the month of AUGUST 1908 was characterised by a slightly high mean pressure ; a somewhat low mean temperature, with a slightly high mean daily range ; a rather low mean rainfall ; a slight excess of winds from W. and N.W.

The mean pressure was 29·900 ins., or 0·044 in. above the normal. The high pressure system which dominated our weather during the latter part of July was maintained almost continuously until August 20th. Thereafter disturbed conditions set in with readings below 29·5 ins. very generally from 25th to 29th, and below 29 ins. in Shetland on 27th. At Leith the sea-level extremes were 30·374 ins. on 2nd and 29·140 ins. on 28th.

The mean temperature was 55°·7, or 0°·9 below the normal, the days being 0°·6 and the nights 1°·2 below their respective averages. Some stations agreed closely with their normals and a few had a slight temperature excess ; but in general the deficiency was well-marked. During the first week or so temperature was above the normal, with maxima for the month very generally on 2nd, but here and there on 6th, Buchlyvie reporting 82° in the shade (on the former day) and Paisley and Dumfries 80°. The coldest nights occurred from 11th to 13th, the sheltered thermometer falling to 30° at Balmoral on 12th and 13th, and to 31° at Wick and Gordon Castle on the latter day. At Balmoral the exposed thermometer fell to 24° on 12th and to the same figure at Crathes on the following day. After the middle of the month the nights were fairly mild, but the days were distinctly cold for the time of year, and afternoon temperatures below 60° were somewhat common.

The mean rainfall was 3·10 ins., or 16 per cent. below the normal. Distribution was rather irregular. Some Western and Southern districts had an excess, but nearly all Eastern and Northern areas a deficiency which was most marked towards the South-East. Thus a total of 6·45 ins. at Poltalloch represented an excess of 36 per cent., and of 1·42 in. at Leith a deficiency of 53 per cent. In some districts the first three weeks were almost continuously fine, and in most the only important interruption occurred between 8th and 10th. On 9th heavy falls were registered in the North-West, 2½ ins. at Glenquoich, and 1½ ins. at Glencarron. The last ten days were as a rule wet, and some heavy falls occurred. Thus on 25th Poltalloch had 1¾ in., and Greenock 1½ in. ;

and Fort-William more than 1 in. on both 26th and 27th. The month closed with a rainstorm which only some Northern districts escaped, and on 31st many falls of more than 1 in. were reported, Montrose registering as much as 1·70 ins.

The heavy rains of the closing days of the month were associated with stormy weather, and on the night of 31st a strong gale from the S.W. prevailed.

Between 25th and 27th thunderstorms occurred over a wide area, with hail in places.

During the first three weeks fog occurred rather frequently in the North.

Bright sunshine was above the average over a great part of the country, but slightly deficient at Aberdeen, Stornoway, and Deerness.

SEPTEMBER 1908—

Hence the month of SEPTEMBER 1908 was characterised by a slightly low mean pressure; a fractionally high mean temperature, with an extremely low mean daily range; a very high mean rainfall; a defect of Westerly winds.

The mean pressure was 29·840 ins., or 0·026 in. below the normal. Deep depressions occurred on 1st and on 8th to 9th, and throughout the month there was no well-marked period of high pressure. The sea-level extremes at Leith were 30·144 ins. on 4th and 29·102 ins. on 1st.

The mean temperature was 53°·0, or 0°·2 above the normal, the days being 1°·0 below and the nights 1°·4 above their respective averages. As a rule the means for the individual stations agreed closely with the normal. Temperature was considerably below the average during the first fortnight, with lowest readings for the month about 5th or 12th. On 5th Balmoral reported 27° in the shade and 20° in the open; and on 12th Stronvar, Colmonell, and other stations 30° in shade. About 16th to 20th mild conditions prevailed, with a maximum of 74° at Gordon Castle on 17th; and at the very end of the month a spell of remarkably warm weather for the advanced time of year set in. Highest readings for the month occurred in many districts on 30th, and the night of 29th to 30th was the mildest of the year in many districts. At Leith the minimum reading for that night was as high as 63°. This outburst of warm weather was associated with a very humid atmosphere. We may note that on 21st and 22nd the range of temperature was exceedingly small, the thermometer at Leith fluctuating only between 56° and 54°.

The mean rainfall was 4·90 ins., or 39 per cent. above the normal. Over the country generally there was a decided excess, amounting to fully 50 per cent. in many districts, and to about 90 per cent. at Nairn, Dundee, and Rothesay. In the Border counties, however, the rainfall was a little below the average. Extremely heavy falls occurred between 5th and 8th. Thus on 5th Glenquoich had 2·38 ins. and Lochbuie 2·00 ins.; on 7th many widely scattered stations, such as Lairg, Fort-William, Dundee, and Drumlairg more than 1 inch, Rothesay and Buchlyvie nearly 2 ins., and Greenock 2½ ins.; and on 8th Stornoway, Wick, and Glencarron falls of nearly 2 ins., and Inverness 2·30 ins. From 13th to 17th somewhat heavy falls again occurred. Considerable flooding took place in the North early in the month, and everywhere harvesting operations were seriously interfered with by the heavy rainfall. At Dundee the month was the wettest September since 1869, and in all districts the number of days with rain was unusually large, as many as 28 at Stornoway and Arbroath.

Stormy weather prevailed at the beginning of the month, and about the 9th, and in general conditions were very unsettled.

Thunder was reported at a number of stations on 10th and again towards the end of the month. Hail occurred at Arbroath and West Linton on 2nd, and at some other places on varying dates.

Fog was continuous in the Firth of Forth from 20th to 25th.

Bright sunshine was everywhere very deficient.

Auroras noted at Baltasound on 4th, 11th, 14th, and 24th. The display of 11th was widely observed, and on 29th and 30th several southern stations again reported the phenomenon.

Note.—The averages for Temperature and Rainfall referred to in the returns for individual stations are for the 40 years 1866–1905, but at the 6 stations whose returns are supplied by the Meteorological Office the averages are for the 35 years 1870–1905. For stations where the actual observations do not cover the entire period of 35 or 40 years, the averages have been adjusted by comparison with neighbouring stations. The Sunshine averages are, as a rule, for the 25 years 1880–1905, but at Edinburgh (Blackford Hill) for the 8 years 1901–1908.

The amount of cloud is estimated on a scale of 0 10, and a day is reckoned as a day of "clear sky" if the average of the estimates at the hours of observation is less than 2, and as an "overcast" day if the average is greater than 8.

REGISTRARS' NOTES.

IN compliance with the following Instructions, many of the Registrars have appended remarks to their Returns, from which the subjoined Notes have been selected. The Registrars alone must be considered responsible for the opinions which they express.

INSTRUCTIONS TO REGISTRARS.

"If, at any time, the Births (whether legitimate or illegitimate), the Deaths, or the Marriages registered during the Quarter have been above or below the average, here state what you consider to be the cause, and whether epidemics, such as Measles, Typhus, Cholera, etc., have prevailed in the District; or if there is any other fact in the character of the Weather, Sanitary or Social Arrangements, Movement of the Population, etc., which will account for the circumstance."

The Figures refer to the Numbers of the Districts in the preceding Tables.

I. NORTHERN DIVISION.

1. Shetland.

11. UNST.—Accidental drowning accounts for two of the deaths registered during the month of August.

3. Caithness.

41. THURSO.—Of the persons whose deaths were registered during the quarter, four were aged over 80 years, one of these being 100 years of age.

4. Sutherland.

45. CLYNE.—Deaths for the quarter unusually high, despite the absence of any epidemic. Of the fifteen deaths, eight occurred during August, three of the latter on the same day.

II. NORTH-WESTERN DIVISION.

5. Ross and Cromarty.

Mainland.

58. APPLECROSS.—The three deaths registered during the quarter have all been of elderly people, whose ages averaged 82½ years. Almost all marriages of persons belonging to this parish are celebrated elsewhere.

71 (1). KINCARDINE.—The illegitimate births were those of twins.

6. Inverness.

Mainland.

95. DAVIOT and DUNLICHTY.—The fact that no birth has been registered in this district during the past quarter constitutes a record.

99 (2). LOCHABER.—All the seven births were of female children.

107 (2). GLENMORISTON.—The deaths recorded in this district during the past quarter were those of a man and a woman each 96 years of age.

Insular.

111 (1). NORTH HARRIS.—Cases of hooping-cough of a mild type have been prevalent in the district. Two cases of measles have also been lately reported.

111 (3). BERNERA.—Hooping-cough epidemic—one death therefrom.

113. NORTH UIST.—Hooping-cough has been in the parish for a year.

117 (2). SOUTH SNIZORT.—Measles and hooping-cough prevalent. One death from the former.

III. NORTH-EASTERN DIVISION.

9. Banff.

146. ALVAH.—Of the three deaths registered during the past quarter, two were due to hooping-cough, which was prevalent in epidemic form in the lower end of the parish.

148. BOTRIPHNIE.—Hooping-cough has been prevalent in the district, but no deaths have resulted. There has been only one death in the parish during the year, a fact which is perhaps unprecedented.

10. Aberdeen.

173. AUCHTERLESS.—An epidemic of measles has prevailed during the quarter, and has not yet quite died out. The only death registered during the quarter, that of a boy aged five years, was primarily due to this cause.

183 (1). BRAEMAR.—The three persons whose deaths were registered during the quarter were aged 78, 84, and 89 years respectively.

217. LOGIE-COLDSTONE and CROMAR.—Hooping-cough has been prevalent in the district for the last two months, but no deaths have resulted therefrom.

239. SLAINS.—Colds and hooping-cough prevalent; one school closed. No deaths have so far occurred.

240. STRATHDON.—Deaths very greatly under the average for this quarter.

IV. EAST-MIDLAND DIVISION.

12. Forfar.

276. CARMYLIE.—The female death registered in August was that of a newly born child whose body was found in a well. The death was the result of violence.

284. EASSIE and NEVAY.—The deaths were those of twins, who lived only sixteen days.

13. Perth.

376. LOGIERAIT.—One of the illegitimate children whose births were registered has been legitimated by the subsequent marriage of his parents.

387. PERTH (LANDWARD).—Of the six deaths registered, four occurred in the Perth Isolation Hospital, and one was that of a man, belonging to another parish, who was killed on the railway.

14. Fife.

434. KENNOWAY.—Marriages below the average. Several males belonging to the parish were married in other parishes. One female died at the age of 93.

449. MOONZIE.—One of the deaths registered was that of a navvy, who died very suddenly. The other was that of a child aged 11 weeks.

458. TULLIALLAN.—The ages of the two persons whose deaths were registered were 67 years and four months respectively.

V. WEST-MIDLAND DIVISION.**18. Dumbarton.**

497. KILMARONOCK.—Three of the four deaths were of old persons aged over 80 years; the fourth was that of a stranger who came to this place for health reasons.

19. Argyll.*Mainland.*

516. KILCÁLMONELL.—The death-rate during the present year has been phenomenally high.

527 (1). LOCHGOILHEAD.—Two cases of accidental drowning occurred in August.

Insular.

545. KINLOCHSPELVIE.—No marriages registered in this district since 1903.

VI. SOUTH-WESTERN DIVISION.**21. Renfrew.**

572 (2). BARRHEAD AND LEVERN.—The high proportion of illegitimate births is due to Renfrewshire Combination Poorhouse being in the district.

22. Ayr.

578 (3). ALLOWAY.—Of the thirteen deaths registered during the quarter, eleven occurred in the Ayr District Asylum.

607. MUIRKIRK.—The births registered during the quarter numbered fifty-four, as compared with twenty-eight for the corresponding quarter of last year.

VII. SOUTH-EASTERN DIVISION.**25. Edinburgh.**

677. COLINTON.—Of the seventy-seven deaths registered during the quarter, fifty-seven occurred in Craiglockhart Poorhouse. Nine births occurred there, seven of them being illegitimate.

680. CRANSTOUN.—One of the deaths recorded during the quarter was that of a man who committed suicide by hanging.

685 (2). EDINBURGH, ST ANDREW.—During the nine months of this year, the marriages registered have shown a marked increase. The number for that period is practically equal to the average annual number for the past four years.

689. INVERESK.—Births above average, and increasing year by year.

27. Berwick.

737. ECCLES.—Epidemic of hooping-cough during the quarter. Two of the deaths registered were of men aged 82 and 92 years respectively.

747. LANGTON.—The death registered is the first for over fourteen months.

28. Peebles.

762 (1). INNERLEITHEN.—Two of the deaths were of twins, aged 4 weeks.

767. NEWLANDS.—One of the deaths registered was that of a woman aged 92.

VIII. SOUTHERN DIVISION.**30. Roxburgh.**

795. LILLIESLEAF.—The two deaths registered were those of females aged 69 and 53 years respectively.

799 (1). MELROSE.—Of the twenty-four deaths, ten occurred in the District Asylum.

31. Dumfries.

817. CUMMERTREES. — This is the seventh occasion since 1856 on which no death has been registered in the third quarter of the year, the last occasion being in 1898. In no other quarter has this ever occurred.

826. GLENCAIRN. — The only death registered was that of a male over 90 years of age.

844. MOUSWALD. — No deaths have been registered in the parish during the last nine months.

32. Kirkcudbright.

862. CORSOCK BRIDGE. — Of the four deaths, three were those of persons over 67 years of age, while the fourth was that of an infant aged 2 days.

884. URR. — The only death registered was suicidal.

33. Wigtown.

901. WIGTOWN. — Of the ten persons whose deaths were registered, one was an infant from Dumfries aged one month; the combined ages of the nine others amount to 713 years, giving the high average age of 79·2 years.

INDEX TO THE DISTRICTS.

*The Figures refer to the Numbers of the Districts in the preceding Tables of Births, Deaths, and Marriages, these being numbered consecutively from 1 to 901.**

* The actual number of Districts is 1078—many Parishes and Burghs having been divided into two or more Districts for the purpose of Registration. Thus Edinburgh and Glasgow, to each of which only a single number is assigned in the Tables, consist of 7 and 18 Districts respectively. In forming the alphabetical arrangement the principle adopted has been to place *compound* names in the order in which they are pronounced.

Cramond, . . . 679	Duddingston, . . . 684	Farr, . . . 50	Glennmuick, Tul-	Jedburgh, . . . 792

1909.

REPORT.

During the quarter ending 31st December 1908 there were registered in Scotland the births of 30,611 living children, the deaths of 18,016 persons, and 7135 marriages. These births are 2001 fewer than those registered in the previous quarter, and 732 fewer than those registered in the fourth quarter of the previous year. The deaths are 1691 more than those registered in the previous quarter, but 776 fewer than those registered in the fourth quarter of the previous year. The marriages are 909 fewer than those registered in the previous quarter, and 999 fewer than those registered in the fourth quarter of the previous year. Compared with the average number of births, deaths, and marriages registered in the fourth quarter of the last ten years, those numbers being corrected for the increase of population, the births for this quarter are 2958 less, the deaths 2227 less, and the marriages 1669 less. The Report for this quarter is of some special interest, as it records the lowest Scottish birth-rate, death-rate, and marriage-rate for any fourth quarter since the introduction of National Registration.

TABLE I.—BIRTHS, DEATHS, and MARRIAGES in SCOTLAND, its Groups of Districts and Divisions during the Quarter ending 31st December 1908, with their Proportion to the Population; also the Illegitimate Births and their Proportion to the Total Births.

BIRTHS.

The total number of births registered during the quarter, 30,611, is equivalent to an annual birth-rate of 25·2 per thousand. This birth-rate is 1·6 less than that for the previous quarter, 0·9 less than that for the fourth quarter of the previous year, and 2·4 less than the mean of the birth-rates for the fourth

quarter of the preceding ten years. It is the lowest quarterly birth-rate recorded in these reports. The previous lowest was 26·1 per thousand, a rate which was recorded for the third and the fourth quarters of 1907.

The birth-rate for the quarter ranged from 28·1 in the Large Town Registration Districts, to 20·3 in the Insular-Rural Districts. In the Small Town Districts it was 27·2, in the Principal Town Districts 24·7, and in the Mainland-Rural Districts 22·8. Compared with the rates for the previous quarter, the birth-rate of each of these groups of registration districts shows a decline, with the exception of that of the Insular-Rural Districts, which shows a slight increase.

In the divisions of the counties the birth-rate for the quarter ranged from 27·0 in the South-Western, to 20·6 in the Northern and Southern. In the West-Midland it was 25·0; in the East-Midland, 24·6; in the North-Eastern, 24·5; in the South-Eastern, 23·6; and in the North-Western, 21·7.

In the Eight Principal Towns the birth-rate for the quarter ranged from 26·6 in Greenock, to 19·6 in Perth. In Dundee, it was 26·3; in Leith, 25·5; in Glasgow, 25·1; in Aberdeen, 24·2; in Paisley, 22·0; and in Edinburgh, 19·9. In Dundee and Aberdeen this rate is higher than in the previous quarter, but in the remaining six towns it is less.

TABLE II.—Percentage of the Illegitimate Births to the Total Births in the Counties of Scotland during the Quarter ending 31st December 1908.

Counties.	Per Cent.	Counties.	Per Cent.	Counties.	Per Cent.
Shetland	2·5	Forfar	8·3	Lanark	5·5

Aberdeen	11·7	Renfrew	3·9	Kirkcudbright	10·9
Kincardine	7·6	Ayr	7·1	Wigtown	16·7

Of the 30,611 children whose births were registered during the quarter, 1958, or 6·4 per cent., were illegitimate. The illegitimate children are 308 less than in the previous quarter, and 3 more than in the fourth quarter of the previous year. The illegitimate rate is 0·5 less than that for the previous quarter, but 0·2 more than that for the fourth quarter of the previous year. In the groups of registration districts the illegitimate rate ranged from 8·3 in the Mainland-Rural Districts, to 3·3 in the Insular-Rural Districts. In the Principal Town Districts it was 6·5, in the Small Town Districts 5·8, and in the Large Town Districts 5·1. In the divisions of the counties this rate ranged from 11·3 in the North-Eastern, and 11·2 in the Southern, to 3·5 in the North-Western,

and 3·8 in the West-Midland. In the Northern it was 8·2; in the South-Eastern, 7·0; in the East-Midland, 6·2; and in the South-Western, 5·5. In the counties this rate ranged from 16·7 in Wigtown, 16·0 in Nairn, 15·9 in Berwick, 15·1 in Caithness, and 13·7 in Elgin, to 0 in Kinross, 1·9 in Ross and Cromarty,

2·5 in Shetland, and 2·9 in Dumbarton. In ten counties this rate exceeded 10 per cent.; in thirteen counties it was between 5 and 10 per cent.; in ten counties it was less than 5 per cent.

Of the 30,611 living children registered, 15,475 were male, and 15,136 female. The ratio of male to female children was thus 102·2 to 100.

The average number of births registered daily in October was 349; in November, 317; and in December, 332.

The birth-rate for the quarter in England and Wales was 24·9, which is 0·3 below the Scottish quarterly birth-rate.

DEATHS.

The deaths registered during the quarter numbered 18,016, and for that number the equivalent annual death-rate is 14·8 per thousand of the estimated population. This death-rate is 1·4 above that for the third quarter, but is 0·8 below that for the fourth quarter of the previous year, and is 1·8 below the mean of the death-rates for the fourth quarters of the previous ten years. It is the lowest yet recorded for a fourth quarter in Scotland, the previous lowest being that for 1907, which, as above stated, is 0·8 more than that for this quarter.

In the groups of registration districts the death-rate for the quarter ranged from 15·9 in the Large Town Districts, to 13·1 in the Insular-Rural Districts. In the Principal Town Districts it was 15·0, in the Small Town Districts 14·7, and in the Mainland-Rural Districts 13·9. Compared with the death-rates for the previous quarter, each of these death-rates is higher, with the exception of that of the Insular-Rural Districts, which is lower. Compared with the death-rates for the fourth quarter of the previous year, the death-rate of the Large Town Districts is higher, but that of the Mainland-Rural Districts is the same, and those of the Principal and Small Town and Insular-Rural Districts are lower.

In the divisions of the counties the death-rate for the quarter ranged from 15·5 in the East-Midland and Southern Divisions, to 13·5 in the Northern. In the South-Western it was 15·1; in the North-Western, 14·4; in the West-Midland, 14·3; in the North-Eastern, 14·1; and in the South-Eastern 14·1.

The death-rate for the quarter in the eight Principal Towns ranged from 18·4 in Dundee, to 13·4 in Paisley. In Glasgow it was 16·3; in Greenock, 15·9; in Edinburgh, 14·3; in Leith, 14·3; in Aberdeen, 13·9; and in Perth, 13·9. Compared with the death-rates for the third quarter, those of all the eight towns are higher. Compared with the death-rates for the fourth quarter of the previous year, that of Aberdeen is higher, but those of the other seven towns are lower.

Of the total deaths registered during the quarter, 8990 were of male persons, and 9026 of female persons.

The average number of deaths registered daily in October was 175, in November 207, and in December 206.

The death-rate for the quarter in England and Wales was 14·6, which is 0·2 less than the Scottish death-rate for the quarter.

MARRIAGES.

Marriages registered during the quarter numbered 7135. The equivalent annual marriage-rate amounts to 5·9 per thousand, a rate which is 0·7 below that for the previous quarter, 0·8 less than that for the fourth quarter of the previous year, and 1·3 less than the mean of the marriage-rates for the fourth quarter of the preceding ten years. The marriage-rate for this quarter is lower than that for any fourth quarter since the introduction of national registration, and no lower quarterly marriage-rate has been recorded during the last twenty years.

In the groups of registration districts the marriage-rate for the quarter ranged from 6·3 in the Principal Town Districts, to 3·8 in the Insular-Rural Districts. In the Small Town Districts it was 5·8, in the Large Town Districts 5·6, and in the Mainland-Rural Districts 5·3. In the divisions of the counties this rate ranged from 6·6 in the North-Eastern and South-Eastern, to 4·6 in the North-Western. In the East-Midland it was 6·5, in the Southern 6·5, in the South-Western 5·5, in the West-Midland 4·9, and in the Northern 4·8.

The average number of marriages registered daily in October was 61, in November 67, and in December 104.

TABLE IV.—Births, Deaths, and Marriages, and their Proportion to the Population, in Eight of the Principal Towns of Scotland, during the Quarter ending 31st December 1908.

TOWNS.	Estimated Population to middle of 1908.	BIRTHS.		DEATHS.		MARRIAGES.

CAUSES OF DEATH IN EIGHT OF THE PRINCIPAL TOWNS.

As 38 per cent. of the population of Scotland live in eight of the principal towns, namely, Glasgow, Edinburgh, Dundee, Aberdeen, Paisley, Leith, Greenock, and Perth, it may be assumed that the causes of death found to be prevalent in them during the quarter are a fairly good indication of the causes of death prevalent in Scotland generally during the quarter. Detail of the causes of death in the remainder of Scotland during the quarter is not yet available.

The estimated population of these eight towns is 1,839,038. Deaths registered in them during the quarter numbered 7210, and for this the equivalent annual death-rate is 15·6, a rate which is 1·8 more than that for the third quarter, but 1·6 less than that for the fourth quarter of the previous year. The death-rates of these towns in October was 13·8, in November 16·6, and in December 16·3.

Deaths from the acutely infectious diseases in these towns during the quarter numbered 453; of them 130 being registered in October, 155 in November, and 168 in December. The death-rate from these causes for the quarter was 0.98 per thousand; for October 0.83, for November 1.03, and for December 1.08. This quarterly death-rate is 0.08 more than that for the previous quarter, but is 1.09 less than that for the fourth quarter of the previous year. These deaths include none from smallpox, 17 from measles, 64 from scarlet fever, 211 from hooping-cough, 109 from diphtheria, 28 from enteric fever, 1 from pyrexia of uncertain origin, and 23 from cerebro-spinal meningitis. Compared with the returns for the previous quarter, the deaths from cerebro-spinal meningitis are 28 fewer, from measles 22 fewer, and from hooping-cough 10 fewer, while those from enteric fever are of the same number, from scarlet fever 41 more, and from diphtheria 56 more. The equivalent annual death-rate per 100,000 from hooping-cough was 46, from diphtheria 24, from scarlet fever 14, from enteric fever 6, from cerebro-spinal meningitis 5, and from measles 4.

Deaths from diarrhoeas, including those registered as due to enteritis and gastro-enteritis, numbered 322; they are 230 fewer than those registered in the previous quarter, but 34 more than those registered in the fourth quarter of the previous year. The equivalent annual death-rate from these causes is 70 per 100,000, a rate which is 49 less than that for the third quarter, but 7 more than that for the fourth quarter of the previous year. This death-rate in October was 90, in November 73, and in December 45.

Deaths ascribed to tuberculosis in these towns during the quarter numbered 883; they are 69 more than those registered in the previous quarter, but 63 fewer than those registered in the corresponding quarter of the previous year. The equivalent annual death-rate is 191 per 100,000, a rate which is 15 higher than that for the previous quarter, but 16 lower than that for the corresponding quarter of the previous year. The death-rate from tuberculosis in October was 179, in November 195, and in December 198. Among the deaths from tuberculosis there were 558 from phthisis, the equivalent annual death-rate being 120 per 100,000, a rate which is 14 higher than that for the previous quarter, but 9 lower than that for the fourth quarter of the previous year.

Deaths from malignant disease numbered 507; they are 24 more than were registered in the third quarter, and 54 more than were registered in the fourth quarter of the previous year. The equivalent annual death-rate is 109 per 100,000, a rate which is 5 more than that for the previous quarter, and 10 more than that for the corresponding quarter of the previous year.

Pneumonia was the ascribed cause of 779 deaths during the quarter in these eight towns, 170 being registered in October, 334 in November, and 275 in December. These deaths are 358 more than those for the previous quarter, but 81 fewer than those for the corresponding quarter of the previous year. The equivalent annual death-rate amounts to 168 per 100,000, a rate which is 77 more than that for the previous quarter, but 20 less than that for the fourth quarter of the previous year. The death-rate from pneumonia in October was 109, in November 221, and in December 176. Deaths from bronchitis numbered 547, and the equivalent annual death-rate was 118 per 100,000. These deaths are 264 more than in the previous quarter, but 80 fewer than in the corresponding quarter of 1907. This death-rate is 57 more than that for

the third quarter, but 19 less than for the fourth quarter of the previous year.

Deaths from diseases and accidents of pregnancy and childbirth, including those ascribed to puerperal septic conditions, numbered 53; they are 4 fewer than in the previous quarter, and 7 fewer than in the corresponding quarter of the previous year.

Deaths of children of less than one year old numbered 1513. The births registered during the quarter numbered 11,097, and thus the infantile mortality rate amounts to 136 per thousand births. This rate is 11 more than that for the previous quarter, but 8 less than that for the fourth quarter of the previous year. The infantile mortality rate for the quarter ranged from 167 in Leith, to 86 in Perth. In Dundee it was 166; in Greenock, 143; in Glasgow, 136; in Aberdeen, 128; in Paisley, 128; and in Edinburgh, 120.

Of the total deaths registered in these eight towns during the month, 2405, or 33·4 per cent., were of children of less than 5 years old, and 1950, or 27·0 per cent., were of persons of over sixty. The former are 144 more than in the previous quarter, but 533 fewer than in the corresponding quarter of the previous year. The latter are 377 more than in the previous quarter, and 49 more than in the corresponding quarter of the previous year.

Deaths from violent causes numbered 297; they are 16 fewer than in the previous quarter, but 14 more than in the corresponding quarter of the previous year. Of them 1 was ascribed to homicide, 12 to suicide, and 284 to accident.

WEATHER.

The Meteorological Returns which appear in the Registrar-General's Monthly Reports, and which refer more particularly to observations made in the eight Principal Towns enumerated above, show that *October* was characterised by an abnormally high mean pressure; an abnormally high mean temperature, with a slightly low mean daily range; a low mean rainfall; a large excess of winds from a South-Easterly quarter. *November* was characterised by a rather high mean pressure; a high mean temperature, with an average mean daily range; a rather low mean rainfall; a considerable excess of winds from South and South-West. *December* was characterised by a slightly low mean pressure; a slightly high mean temperature, with a rather high mean daily range; a somewhat low mean rainfall; and a large excess of winds from a Southerly quarter.

Observations made *throughout Scotland* show that the mean height of the barometric column, reduced to sea-level and 32° Fahr., was 30·076 inches in October, 29·879 inches in November, and 29·742 inches in December. The mean temperature for the quarter was 45°·3, or 2°·5 above the average mean temperature for the corresponding quarter of the last ten years. The mean temperature in October was 52°·6, in November 43°·9, and in December 39°·3. The absolutely highest temperature recorded in October was 81°, in November 60°, and in December 56°. The absolutely lowest temperature recorded in October was 18°, in November 16°, and in December 10°. The mean number of days on which rain fell was 13 in October, 18 in November, and 20 in December; the mean amount collected was 1·82 inches in October, 3·28 inches in November, and 3·67 inches in December.

CONSTITUTION OF THE DISTRICTS DISTINGUISHED IN THE PRECEDING
TABLES BY AN ASTERISK (*).

No.	Districts.	Component Parts (Parishes).
2. Orkney.		
13	Birsay	Part of Harray and Birsay.
14	Deerness	Part of St Andrews and Deerness.
18	Harray	Part of Harray and Birsay.
22	North Ronaldshay ..	Part of Cross and Burness.
25	St Andrews	Part of St Andrews and Deerness.
26	Sanday	Lady, and part of Cross and Burness.
3. Caithness.		
37b	Keiss	Parts of Canisbay and Wick.
5. Ross and Cromarty.		
58	Applecross	(1) Part of Applecross; (2) Remainder of Applecross, and part of Gairloch.
59b	Carnoch	Parts of Contin and Urray.
86b	Carloway	Parts of Barvas and Uig.
87	Lochs	Lochs, and part of Uig.
6. Inverness.		
92b	Cannich	Parts of Kilmorack and Kiltarlity.
112	Kilmuir	(1) Part of Kilmuir; (2) Remainder of Kilmuir, and part of Snizort.
8. Elgin.		
135	Elgin	Elgin, and parts of New Spynie and St Andrews-Lhanbryde.
9. Banff.		
152	Enzie	Parts of Bellie and Rathven.
155b	Glenrinnies	Parts of Aberlour and Mortlach.
167	Seafeld	Parts of Cullen and Rathven.
10. Aberdeen.		
171b	Ardallie	Parts of Cruden, Ellon, Longside, and Old Deer.
210b	Kinmonth	Parts of Crimond, Longside, Lonmay, Old Deer, and Strichen.
217	Logie Coldstone and Cromar	Logie Coldstone, and part of Glenmuick.
222b	Millbren	Parts of Fyvie and Monquhitter.
227b	New Pitligo	Parts of Aberdour, New Deer, Strichen, and Tyrie.
231	Peterculter	(1) Parts of Aberdeen and Peterculter; (2) Remainder of Peterculter.
237b	Savoch	Parts of Ellon, New Deer, Old Deer, and Tarves.
249b	Ythan Wells	Parts of Auchterless and Forgue.
11. Kincardine.		
266	Nigg	Nigg, and part of Aberdeen.
12. Forfar.		
282	Dundee	Dundee Combination, and part of Mains and Strathmartine.
294b	Kilry	Parts of Glenisla and Lintrathen.
13. Perth.		
324	Aberfeldy	Parts of Dull, Kenmore, and Logierait.
330	Auchtergaven	Parts of Auchtergaven and Logiealmond.
331	Balquhiddier	Balquhiddier, and part of Comrie.
344	Dowally	Part of Dunkeld and Dowally.
349	Dunkeld	Part of Dunkeld and Dowally.
355b	Foss	Parts of Blair-Athol and Dull.
361	Killin	Parts of Kenmore and Killin.
375	Logiealmond	Parts of Logiealmond, Little Dunkeld, and Methven.
379	Meigle	Meigle, and part of Coupar-Angus.
386b	Persie	Parts of Alyth, Blairgowrie, and Kirkmichael.
387	Perth	Perth, and part of Kinmoull.
393b	Stanley	Parts of Auchtergaven, Kinclaven, and Redgorton.
394b	Strathfillan	Part of Killin.
394c	Tenandry	Parts of Blair-Athol and Moulin.
14. Fife.		
402	Anstruther-Easter ..	Anstruther-Easter, and part of Kilrenny.
417	Crail	Part of Crail and May Island.
423	Dunbog	Dunbog, and part of Flisk.
425	Dunino	Dunino, and part of Crail.
442	Kirkcaldy and Abbotshall	Part of Kirkcaldy and Dysart.
457b	Thornton	Part of Kirkcaldy and Dysart and of Markinch.
17. Stirling.		
473	Bonnybridge	Parts of Denny, Dunipace, and Falkirk.
488	St Ninians	Parts of St Ninians and Stirling.
490	Stirling	Parts of St Ninians and Stirling.

CONSTITUTION OF THE DISTRICTS—*continued.*

No.	Districts.	Component Parts (Parishes).
18. Dumbarton.		
496	Dumbarton	Dumbarton, and parts of Cardross and Old Kilpatrick.
19. Argyll.		
504	Ardchattan	Part of Ardchattan and Muckairn.
505	Ardnamurchan	(1) Parts of Ardnamurchan, and of Arisaig and Moldart.
506	Ballachulish, etc.	Parts of Kilmallie and Ardgour.
509	Cumlodden and Minard	Parts of Glassary and Inveraray.
515	Kilbrandon and Kilchattan	Kilbrandon and Kilchattan, and part of Jura.
517	Kilchrenan, etc.	(1) Parts of Kilchrenan and Dalavich, and Glenorchy and Inishail; (2) Remainder of Kilchrenan and Dalavich.
520	Kilmallie	Parts of Kilmallie and Ardgour.
525	Lismore	Lismore and Appin, and part of Ardgour.
526	Lochgilphead	Parts of Glassary and South Knapdale.
529	Muckairn	Parts of Ardchattan and Muckairn, and Glenorchy and Inishail.
535	Tarbert	Parts of Kilcalmonell, Saddell and Skipness, and South Knapdale.
536	Bowmore (or Kilarrow)	Part of Kilarrow and Kilmeny.
543	Kilmeny	Part of Kilarrow and Kilmeny.
545	Kinlochspelve	Part of Pennygown and Torosay.
547	Portnahaven	Part of Kilchoman.
548	Salen	Parts of Kilninian and Kilmore, and Pennygown and Torosay.
549	Tobermory	Part of Kilninian and Kilmore.
550	Torosay	Part of Pennygown and Torosay.
20. Bute.		
556	Lochranza	Parts of Kilbride and Kilmory.
21. Renfrew.		
559b	Bridge of Weir	Part of Houston and Killellan and of Kilbarchan.
572	Neilston	(1) Part of Neilston; (2) Remainder of Neilston, and part of Paisley.
22. Ayr.		
576	Ardrossan	(1) Parts of Ardrossan and West Kilbride; (2) Remainder of Ardrossan.
578	Ayr (Alloway)	Parts of Ayr and Maybole.
584b	Crosshill	Parts of Kirkmichael, Kirkoswald, and Maybole.
585	Irvine	Irvine, and part of Dundonald.
603	Loudoun (Darvel)	Parts of Loudoun and Galston.
610b	Patna	Parts of Dalmellington, Dalrymple, Kirkmichael, and Straiton.
23. Lanark.		
622	Barony	Part of Glasgow.
626a	Cadder (Eastern district)	Parts of Cadder and Glasgow.
626b	Calderhead	Parts of Cambusnethan and Shotts.
644	Glasgow	Parts of Glasgow, Govan Combination, and Rutherglen.
25. Edinburgh.		
685	Edinburgh	Parts of Edinburgh and Colinton.
692	Leith	Leith, and part of Edinburgh.
695b	Newcraighall	Parts of Inveresk and Liberton.
698b	Stobhill	Parts of Borthwick, Cockpen, and Newbattle.
29. Selkirk.		
774a	Caddonfoot	Caddonfoot, and part of Innerleithen.
30. Roxburgh.		
787b	Edgerston	Parts of Jedburgh and Southdean.
31. Dumfries.		
813b	Brydekirk	Parts of Annan, Cummertrees, and Hoddon.
830	Holywood	Holywood, and part of Terregles.
853b	Wanlockhead	Part of Sanquhar.
32. Kirkcudbright.		
857b	Bargrennan	Parts of Minnigaff and Penninghame.
862	Corsock Bridge	Parts of Balmaclellan, Kirkpatrick-Durham, and Parton.
864	Dalbeattie	Part of Urr.
33. Wigtown.		
899	Stranraer	Stranraer, and parts of Inch and Leswalt.

LIST OF REGISTRATION DISTRICTS which include BURGHS or TOWNS of 2000 inhabitants and upwards, or *parts thereof*, bearing a different name from the District in which they are situated.

METEOROLOGICAL REPORT

FOR THE MONTHS OF

OCTOBER, NOVEMBER, DECEMBER,

1908.

DIAGRAM

SHOWING THE STATIONS
of the

SCOTTISH METEOROLOGICAL SOCIETY.

Reported to the Registrar General of Scotland.

REPORT ON THE WEATHER OVER SCOTLAND DURING THE QUARTER ENDING 31st DECEMBER 1908.

By A. WATT, M.A., F.R.S.E., under the Direction of the Council of the Scottish Meteorological Society.

THE Report is based on observations made, morning and evening, at Stations of the Scottish Meteorological Society, and at some additional stations whose returns are included by the courtesy of the Meteorological Office. The total number of contributing stations is 68. For list of Observers, see page 68.

SUMMARY OF OBSERVATIONS.

In Table I., the means for the various elements are the arithmetical means of the values at all the contributing stations. That for rainfall does not represent the whole country in a quite satisfactory manner, as stations are more numerous in dry districts than in wet districts: the figures, however, are fairly comparable with the corresponding figures given for former years.

Table II. refers to eight of the principal towns only (*v.* page 7), and is extracted from the Monthly Reports already published by the Registrar General for Scotland.

TABLE I.—MEANS FOR ALL SCOTLAND.

1908.	BARO- METER at 32° F. and Sea- level.	SELF-REGISTERING THERMOMETERS.					RAIN.	
		Mean Max.	Mean Min.	Mean Temp.	Ab- solute Max.	Ab- solute Min.	Days.	Amount.
	ins.	°	°	°	°	°		ins.
Oct.	30·076	58·4	46·7	52·6	81	18	13	1·82
Nov.	29·879	49·2	38·6	43·9	60	16	18	3·28
Dec.	29·742	44·3	34·3	39·3	56	10	20	3·67

TABLE II.—MEANS FOR THE EIGHT PRINCIPAL TOWNS.

1908.	SELF-REGISTERING THERMOMETERS.					RAIN.		WIND—NO. OF OBSERVATIONS.									
	Mean Max.	Mean Min.	Mean Temp.	Ab- solute Max.	Ab- solute Min.	Days.	Amount.	N	NE	E	SE	S	SW	W	NW	Calm or Var.	
Oct.	58·6	47·6	53·1	77	26	14	ins. 1·86	2	3	10	15	8	13	3	1	7	
Nov.	49·2	39·2	44·2	57	24	18	2·55	2	2	3	5	5	16	12	7	8	
Dec.	44·6	34·3	39·5	54	18	19	3·12	1	2	4	11	9	17	8	4	6	

And when the figures in Table I. and those of wind-direction in Table II. are compared with the averages for 1856–1905, during the same months, they show the following characteristics and differences:—

OCTOBER 1908—

Mean Barometric Pressure, 30·076 inches; greater than the average by 0·262 inch.
Mean Temperature, 52°·6; greater by 6°·0.
Mean Daily Range of Temperature, 11°·7; less by 0°·4.
Rain, Number of Days, 13; less by 4 days.
Rain, Depth in Inches, 1·82; less by 2·22 inches.
Wind, Direction of: a 7 days' excess of winds from between E. and S.

NOVEMBER 1908—

Mean Barometric Pressure, 29·879 inches; greater than the average by 0·043 inch.
Mean Temperature, 43°·9; greater by 3°·0.
Mean Daily Range of Temperature, 10°·6; greater by 0°·2.
Rain, Number of Days, 18; greater by 1 day.
Rain, Depth in Inches, 3·28; less by 0·52 inch.
Wind, Direction of: a 4 days' excess of winds from S. and S.W.

DECEMBER 1908—

Mean Barometric Pressure, 29·742 inches; less than the average by 0·038 inch.
Mean Temperature, 39°·3; greater by 1°·2.
Mean Daily Range of Temperature, 10°·0; greater by 0°·5.
Rain, Number of Days, 20; greater by 3 days.
Rain, Depth in Inches, 3·67; less by 0·46 inch.
Wind, Direction of: a 7 days' excess of winds from between S.E. and S.W.

OCTOBER 1908—

Hence the month of OCTOBER 1908 was characterised by an abnormally high mean pressure; an abnormally high mean temperature, with a slightly low mean daily range; an abnormally low mean rainfall; a large excess of winds from a South-Easterly quarter.

The mean pressure of 30·076 ins. was as much as 0·262 in. above the normal, and during the last fifty years has been equalled in October only in 1897. The fluctuations of the barometer were unusually slight, and at Leith pressure fell below 30 ins. only between 8th and 14th and on 28th and 30th, the sea-level extremes there being 30·555 ins. on 22nd and 29·686 ins. on 10th.

The mean temperature was 52°·6, or as much as 6°·0 above the normal, the days being 5°·8 and the nights 6°·2 above their respective averages. The temperature excess was strongly marked in all districts, and the month was decidedly the mildest October for at least fifty years. Conditions at the beginning of the month were entirely abnormal. At Edinburgh the 1st was the warmest day of the present year, and on that day Broomlands (Kelso) and Corstorphine reached 79° in the shade, whilst on 3rd Loanhead (Logie Coldstone) and Tillypronie reached 81°. Such high readings in October are unprecedented. Temperature maintained an unusually high-level during the greater part of the month, the only cold weather occurring with North-Easterly winds during the fourth week. On 25th, Balmoral reported 18° in shade, and on 26th, Kingussie 19°.

The month was as remarkable for its low rainfall as for its mildness, and appears for the country as a whole to have been the driest October for at least half a century. The mean of all the stations was 1·82 in., or 55 per cent. below the normal. In parts of Berwickshire and Forfarshire there was a local excess, but considerable areas had only one-quarter or one-fifth of their normal rainfalls, the deficiency being most pronounced in the North-West and North. Many stations had aggregates of less than 1 in., Inverness and Kingussie only $\frac{1}{2}$ in. and Nairn only 0·42 in. In general the number of days with rain was very small, some districts being rainless, or all but so, during the first half of the month, and nearly all quite rainless from 21st to 25th. The only very heavy falls experienced were (1) in the North-West on 10th, when Glen-carron had 1·03 in., or fully half the total for the month; (2) on 18th in some Eastern districts, Montrose having 2·18 ins., Duns and Marchmont $1\frac{1}{2}$ in., and Crieff 1 in.

Wind force was, as a rule, light, but rather stormy weather prevailed on the North-West coast between 8th and 12th, and in the extreme North from 19th to 22nd.

A thunderstorm at Rona on 1st and at Lochindaul on 8th.

A good deal of fog occurred at the beginning, middle and end of the month, the densest visitations being on the South-West coast from 1st to 5th, and in East and North on 16th.

Sunshine varied greatly in amount, Nairn with 125 hours, having three times as much as Castlebay with only forty-one hours.

Auroras noted at Baltasound on 25th, 26th, 29th and 31st, that on 31st being widely observed.

NOVEMBER 1908—

Hence the month of NOVEMBER 1908 was characterised by a slightly high mean pressure; a high mean temperature with a fractionally high mean daily range; a somewhat low mean rainfall; a considerable excess of winds from S.W. and W.

The mean pressure was 29·879 ins., or 0·043 in. above the normal. Considerable fluctuations occurred from 21st to 24th, with lowest readings for the month on 22nd. On the evening of that day the barometer at Leith fell to 28·882 ins., and on the morning of 23rd it stood almost an inch higher. The maximum at Leith was 30·380 ins. on 30th.

The mean temperature was 43°·9, or 3°·0 above the normal, the days being 3°·1 and the nights 2°·9 above their respective averages. The general mildness of the month was well marked in all districts, and interrupted only between 6th and 10th, on 19th and 20th, and at the very close of the month, with shifts of wind from the prevailing Southerly direction to East or North. Highest temperatures occurred on 1st, when Gordon Castle reached 60° in shade, about 12th, or on 28th. The generally coldest weather was experienced on 9th and 10th. On 10th the sheltered thermometer at Perth did not rise above the freezing point, and on the preceding night West Linton reported a minimum of 16°, which was decidedly the lowest temperature experienced anywhere during the month.

The mean rainfall was 3·28 ins., or 14 per cent. below the normal. To the North and North-West of the Caledonian Canal there was rather more than the average rainfall, but most other districts had a deficiency, the shortage towards North-East and South-East being extremely well-marked and amounting in Berwickshire to 50 per cent. In the South of Scotland practically no rain fell during the first nine days of the month, and but little elsewhere; but thereafter conditions were generally unsettled till near the end of the month, though towards both N.E. and S.E. there were many fine days. The wettest weather was during the fourth week, but the general absence of

very heavy falls was noteworthy; Lochbuie, however, had $1\frac{1}{2}$ in. on 21st, Dumbarton and Glencarron fully 1 in. on the same day, and Stronvar more than 1 in. on 24th and on 27th.

Stormy weather was experienced in the North on 17th, and for several days from 22nd onwards gales were general.

Between 20th and 25th thunderstorms occurred at widely scattered places on some day or other,—at Fort-William on 22nd, 24th, and 25th.

Coast fog occurred from 1st to 3rd, but practically none thereafter.

Sunshine differed but little in amount from the normal.

Auroras noted at Gordon Castle on 3rd; at various places on 7th, 13th, 14th, or 17th; at West Linton on 23rd; at Baltasound on 16th, 17th, and 28th.

DECEMBER 1908—

Hence the month of DECEMBER 1908 was characterised by a slightly low mean pressure; a somewhat high mean temperature, with a slightly high mean daily range; a somewhat low mean rainfall; a large excess of winds from a Southerly quarter.

The mean pressure was 29·742 ins., or 0·038 in. below the normal. The deepest depression of the month occurred on the night of 10th, when the barometer at Leith fell to 28·665 ins., the highest reading there being 30·374 ins. on 1st.

The mean temperature was $39^{\circ}\cdot3$, or $1^{\circ}\cdot2$ above the normal, the days being $1^{\circ}\cdot5$ and the nights $1^{\circ}\cdot0$ above their respective averages. The almost continuously mild weather for which the months of October and November were remarkable was prolonged, with but slight interruptions, until about 24th December, and temperature was frequently greatly above the average for the time of year. Highest readings occurred as a rule between 20th and 22nd, but here and there during the first week, the actual highest being 56° at Oban on 21st. On 25th, with a shift of wind to S.E., and later to E., under the influence of a Continental high-pressure system, a short spell of severe cold set in with very low day and night temperatures. The cold was, however, less severe than that experienced in Central England, where shade readings below or but little above zero occurred, whilst the lowest minima reported in Scotland were 10° at Lednathie and 12° at Buchlyvie on the night of 27th to 28th. On 31st a mild air-current from S.W. was again established, and we may note that whilst at Edinburgh the highest day temperature on 29th was only 24° , it was 48° on 31st.

The mean rainfall was 3·67 ins., or 11 per cent. below the normal, but the general distribution was very irregular. Some Western districts had a slight excess, whilst in Eastern districts and as far North as Dunrobin there was, as a rule, a decided shortage. Aberdeen, however, had an excess of as much as 60 per cent. From 3rd to 22nd rain fell on every day at some Western places, with some heavy amounts between 5th and 9th, Fort-William registering 1·51 in. on 5th, 1·83 in. on 7th, and 1·04 in. on 9th. On 11th Deerness had almost $1\frac{3}{4}$ in., and Lochbuie more than 1 in. on 12th and on 21st. From 26th onwards precipitation took the form of snow and, with heavy drifting, registration became a matter of difficulty. It appears certain, however, that towards the South-East the actual fall was but slight, whilst at Aberdeen the rainfall-equivalent on 26th was about $1\frac{1}{4}$ in. and on 27th nearly 1 in. During the month there was at Leith only one day with a fall of more than one-tenth of an inch, and towards the South-East generally the month's totals were only from 20 to 30 per cent. of the average.

Gales were experienced between 7th and 12th, whilst from 26th to 30th weather of a very wintry type prevailed, a severe snowstorm becoming general on 27th. With strong winds from S.E. and E. the storm was of the nature of a blizzard, and for a day or two extensive snowdrifts completely disorganised the railway service in several districts. On 31st the snow had largely disappeared.

Thunderstorms occurred in Shetland on 6th, 9th, and 31st; in Orkney on 6th and 15th; at Fort-William on 9th and 13th; at Colmonell on 14th; and at Tillypronie on 31st.

Coast fog in East early in the month, and all round the Coast except to N.W. between 27th and 29th.

Sunshine varied in amount. Edinburgh had a slight excess, but Aberdeen only half its average.

Auroras observed at Baltasound on 18th, 26th and 31st.

Note.—The averages for Temperature and Rainfall referred to in the returns for individual stations are for the 40 years 1866–1905, but at the 6 stations whose returns are supplied by the Meteorological Office the averages are for the 35 years 1870–1905. For stations where the actual observations do not cover the entire period of 35 or 40 years, the averages have been adjusted by comparison with neighbouring stations. The Sunshine averages are, as a rule, for the 25 years 1880–1905, but at Edinburgh (Blackford Hill) for the 8 years 1901–1908.

The amount of cloud is estimated on a scale of 0–10, and a day is reckoned as a day of “clear sky” if the average of the estimates at the hours of observation is less than 2, and as an “overcast” day if the average is greater than 8.

REGISTRARS' NOTES.

In compliance with the following Instructions, many of the Registrars have appended remarks to their Returns, from which the subjoined Notes have been selected. The Registrars alone must be considered responsible for the opinions which they express.

INSTRUCTIONS TO REGISTRARS.

"If, at any time, the Births (whether legitimate or illegitimate), the Deaths, or the Marriages registered during the Quarter have been above or below the average, here state what you consider to be the cause, and whether epidemics, such as Measles, Typhus, Cholera, etc., have prevailed in the District; or if there is any other fact in the character of the Weather, Sanitary or Social Arrangements, Movement of the Population, etc., which will account for the circumstance."

The Figures refer to the Numbers of the Districts in the preceding Tables.

I. NORTHERN DIVISION.

2. Orkney.

31. STRONSAY.—Births fewer, deaths more than the average. Of the latter, three were of persons aged 88, 91, and 97 years respectively.

33 (1). WESTRAY.—Deaths, both for this and for last year, considerably fewer than the average.

4. Sutherland.

45. CLYNE.—Births and deaths considerably fewer than the average. No death registered during the seven weeks ending the quarter.

II. NORTH-WESTERN DIVISION.

5. Ross and Cromarty.

Mainland.

58. APPLECROSS.—The two deaths registered were those of persons aged 89 and 50 years respectively, death in the latter case being due to drowning.

71 (1). KINCARDINE.—Two of the deaths registered in October were recorded by authority of the Procurator Fiscal.

Insular.

88. STORNOWAY.—Of the deaths registered during the quarter, fourteen were those of children who died of measles. The total number of deaths registered during the year is above the average, being sixty-six above the corresponding figure for 1907. Births registered during the year are fewer than the average, being fifty fewer than in 1907.

89. UIG.—Six deaths in October, three in November, and one in December were the result of an epidemic of measles.

6. Inverness.*Mainland.*

97 (2). KNOYDART.—The male whose death was registered was drowned while attempting to swim ashore from a capsized boat.

104. LAGGAN.—Some cases of diphtheria were reported, but no deaths resulted. Births more than the average. No deaths registered since August.

106. PETTY.—Births fewer than the average. Deaths fewer than for any quarter for a considerable time.

107 (1). URQUHART.—Deaths twice as many as births. Of the former, six were due to cardiac disease. No infectious disease occurred.

Insular.

117 (2). SOUTH SNIZORT.—Births and deaths fewer than the average. Measles prevalent in the district, but no deaths therefrom.

III. NORTH-EASTERN DIVISION.**8. Elgin.**

129. DALLAS.—Deaths fewer than the average. No marriages registered in the parish during 1908.

131 (1). BURGHEAD.—The total number of deaths registered during the year is forty-eight, which is considerably over the average. This is due to an outbreak of measles and whooping-cough amongst the children in the beginning of the year.

144 (2). GARMOUTH.—Three of the six deaths were certified as due to whooping-cough. Of the others, two were of females aged 90 and 88 years respectively.

9. Banff.

150. CULLEN.—Of the thirty-seven deaths registered during the year, sixteen were of persons whose ages averaged over 77 years.

162. MORTLACH.—Of the forty-eight deaths registered during the year, the ages in seventeen cases ranged from 74 to 93 years.

10. Aberdeen.

178. CAIRNEY.—During the latter half of the quarter several cases of measles of a mild type occurred.

217. LOGIE-COLDSTONE and CROMAR.—The three persons whose deaths were registered during the quarter were aged 71, 75, and 87 years respectively.

222b. MILLBREX.—The one death registered during the quarter was that of a child 11 weeks old, who died from pneumonia.

229. MELDRUM.—One of the deaths registered in October was that of a young child whose body was found in a plantation. The deaths registered in December include those of two females each aged 78 years, and of another aged 82 years.

231 (1). EAST PETERCULTER, LANDWARD.—There are at present prevailing in the district epidemics of scarlet fever (of a mild type) and of diphtheria. Two children have died of the latter. Five of the deaths recorded are of old people whose ages ranged from 73 to 88 years.

235. RATHEN.—Several persons belonging to this district have been married during the quarter, but in each case the marriage was celebrated elsewhere.

239. SLAINS.—The only death registered was that of a female aged 76.

IV. EAST-MIDLAND DIVISION.**12. Forfar.**

271. ARBIRLOT.—No marriages have taken place in this parish during the year, all those of persons belonging to the district having been celebrated elsewhere.

284. EASSIE and NEVAY.—The births include those of twins.

304. LOGIE-PERT.—Of the five deaths registered, four were of old people.

321. TANNADICE.—The number of deaths registered during the year is very much below the average, being only four, while the population at last census was 1106.

13. Perth.

324. ABERFELDY.—All the three deaths were registered in October. Of them, two were those of an infant and of a man aged 74 years respectively.

328. ALYTH.—Of the thirteen deaths registered, nine were of persons whose ages ranged from 72 to 98 years.

330. AUCHTERGAVERN.—Numbers of both births and deaths for the quarter are below the average, but those for the year are normal.

331. BALQUHIDDER.—The number of deaths (four) registered during the year is the smallest number recorded for any year since 1855. The average number for each of the fourteen years immediately preceding is 12.3. The numbers of births and of marriages are each above their respective averages for the period from 1855 onwards.

358. GLENDEVON.—Most of the deaths registered during the past three years have been the results of accidents at the new waterworks, Glenquay. We have been singularly free from them for months past.

376. LOGIERAIT.—The two illegitimate births registered in December were those of twins.

377. LONGFORGAN.—Of the three deaths recorded, two were of persons aged over 80 years.

378. MADDERTY.—The only death registered during 1908 was that of a child aged 11 months.

387. PERTH, LANDWARD.—Four of the five deaths occurred in Perth Isolation Hospital.

14. Fife.

406. AUCHTERMUCHTY.—Of the deaths registered, one was that of a child who died in the District Hospital, while of the others, six were of persons aged over 70 years.

413. CARNBEE.—The two deaths registered took place in the District Hospital. Both were those of children from another parish, and death in each case was caused by scarlet fever, which has been epidemic in the neighbouring coast burghs.

434. KENNOWAY.—Number of births above, and number of deaths below, the average. In this quarter there was registered the death of a male aged 92 years.

439. KINGHORN.—Six deaths took place in the Combination Poorhouse situated in this district.

458b. TULLIALLAN.—Three of the deaths registered were those of persons aged 78, 82, and 88 years respectively. Four of the deaths were of persons from another parish, who were drowned.

V. WEST-MIDLAND DIVISION.

17. Stirling.

469. AIRTH.—Of the seven deaths recorded, one was the result of a boating accident, and four were those of children aged from three weeks to four months.

18. Dumbarton.

492. ARROCHAR.—Only two deaths registered this year, and both of persons only temporarily resident in the parish. This number is the same as that for last year, and represents a death-rate of 3.3 per 1000.

497. KILMARONOCK.—The death-roll for the year is unusually high, and includes the cases of four young men, strangers, who were drowned together in Loch Lomond, and of a young man who had come to the parish for health reasons. Of the remaining fourteen entries, ten were of persons aged over 70 years.

19. Argyll.

Mainland.

505 (1). AHARACLE.—Three of the deaths recorded were of elderly individuals whose ages averaged 75 years.

510 (2). KILMUN.—One of the deaths registered was that of a female aged 107 years.

515. KILBRANDON and KILCHATTAN.—The death-rate for the past year has been exceptionally low, only sixteen deaths having been registered as compared with thirty-three for 1907. The large number of old people who died during the previous year may help to account for the low death-rate.

526. LOCHGILPHEAD.—The number of births registered this year is less by twelve than the corresponding number for last year.

Insular.

539. JURA.—One of the deaths in December was caused by drowning.

20. Bute.

553 (2). KILBRIDE.—Notwithstanding the abnormally mild weather, influenza was very prevalent, but no deaths resulted.

554. KILMORY.—Of the five deaths registered in December, four were those of the crew of a schooner which was wrecked.

557. NORTH BUTE.—The number of deaths (eighteen) registered during the year is the lowest since 1894. The number of births (twenty) is the lowest, with one exception, recorded since 1855.

VI. SOUTH-WESTERN DIVISION.

21. Renfrew.

569. KILMACOLM.—Of the seventeen deaths, six were of inmates of the Orphan Homes of Scotland.

22. Ayr.

576 (2). NEW ARDROSSAN.—Only sixteen marriages were registered during 1908, as compared with twenty-eight registered during 1907. The decrease is probably due to dull trade.

578 (3). ALLOWAY.—Of the fourteen deaths registered during the quarter, all, except that of an infant a few hours old, were of inmates of Ayr District Asylum.

579. BALLANTRAE.—Death-rate below the average.

23. Lanark.

648. LANARK.—Measles epidemic in November and December.

VII. SOUTH-EASTERN DIVISION.

24. Linlithgow.

663 (1). BO'NESS.—The death occurred in October of a woman, a native of Ireland, aged over 100 years.

25. Edinburgh.

677. COLINTON.—Of the sixty-four deaths registered, fifty-one occurred in Craiglockhart Poorhouse, as did six of the seven illegitimate births.

686. FALA AND SOUTRA.—All the four deaths recorded during 1908 were registered during the first four months of the year. The ages at death ranged from 33 to 76 years.

692 (1). NORTH LEITH.—The removal of the North Poorhouse and Hospital, in July last, to the district of South Leith, accounts to a certain extent for the considerable reduction in the number of deaths registered.

696. NEWTON.—The only death recorded during the quarter is that of a male aged 80 years.

26. Haddington.

705. DIRLETON.—Deaths much below average number. During the year the parish has been singularly free from epidemic sickness of any kind.

713. NORTH BERWICK.—The parish has been singularly free from epidemics during 1908, consequently the death-rate is below the average.

27. Berwick.

736. EARLSTON.—Only two births have been registered during the quarter, and in one case the domicile of the mother was in Peebles.

740. FOGO.—Deaths during the year numbered thirteen, being the greatest number registered in the parish in any year since 1855.

28. Peebles.

762 (1). INNERLEITHEN.—One of the deaths registered was that of a male who had attained to his 88th year.

773a. WEST LINTON.—The fact that no births have been recorded during the quarter is quite exceptional.

VIII. SOUTHERN DIVISION.

30. Roxburgh.

799 (1). MELROSE.—Of the nineteen deaths registered, nine occurred in the District Asylum.

31. Dumfries.

818. DALTON.—The only death registered was that of a female aged 88 years.

822. DUNSCORE.—Two of the births and two of the deaths were those of twin infants, who lived only a few days. Three of the other deaths were of persons aged 76, 85, and 94 years respectively.

829. HODDAM.—The two deaths recorded were the only ones registered during the past six months. They were both of infants aged 6 hours and 7 months respectively.

837 (2). KIRKPATRICK - FLEMING, SOUTHERN DISTRICT.—Of the seventeen deaths registered during the year, three were of persons belonging to other parishes who died in the Poorhouse. Eight were of persons aged over 66 years, and four were of children aged under 1 year.

844. MOUSWALD.—Not a single death has been registered in the parish during the year.

852. TYNRON.—The death was that of a man aged 88 years.

32. Kirkcudbright.

858. BORGUE.—Of the three deaths registered, two were of persons aged 83 and 87 years respectively.

860. CARSPHAIRN.—Two residents belonging to this parish died in other places to which they had been removed for treatment. If those deaths had taken place here, the number of deaths registered would have been the highest recorded for many years.

878. PARTON.—No deaths have taken place in the parish since May.

33. Wigtown.

890. KIRKMAIDEN.—There has been an epidemic of scarlet fever, with one death. A few people have been removed to Stranraer Fever Hospital, where one has died.

898. STONEYKIRK.—Nine of the 16 deaths were of persons aged over 75 years, two being aged over 90 years. Deaths and marriages more than the average.

INDEX TO THE DISTRICTS.

* The actual number of Districts is 1078—many Parishes and Burghs having been divided into two or more Districts for the purpose of Registration. Thus Edinburgh and Glasgow, to each of which only a single number is assigned in the Tables, consist of 7 and 18 Districts respectively. In forming the alphabetical arrangement the principle adopted has been to place compound names in the order in which they are pronounced.

Cramond, . . . 679	Duddingston, . . . 684	Farr, . . . 50	Glenmuick, Tul-lich, etc., . . . 201	Jedburgh, . . . 792
